

**UNITED STATES BANKRUPTCY COURT
SOUTHERN DISTRICT OF TEXAS
HOUSTON DIVISION**

In re:

VALARIS PLC, *et al.*,¹

Debtors.

Chapter 11

Case No. 20-34114 (MI)

(Jointly Administered)

**SUPPLEMENTAL DECLARATION OF DMITRY KRIVIN
IN SUPPORT OF THE DEBTORS' APPLICATION FOR ENTRY OF
AN ORDER (I) AUTHORIZING THE RETENTION AND EMPLOYMENT OF
MCKINSEY RECOVERY & TRANSFORMATION SERVICES U.S., LLC AND
CERTAIN OF ITS AFFILIATES TO PROVIDE CERTAIN ORDINARY COURSE
CONSULTING SERVICES TO THE DEBTORS EFFECTIVE AS OF THE
PETITION DATE AND (II) GRANTING RELATED RELIEF**

I, Dmitry Krivin, declare as follows:

1. I am employed as a partner at McKinsey & Company, Inc. United States ("McKinsey US") with an office at 175 Greenwich Street, New York City, NY, 10007. McKinsey & Company, Inc. ("McKinsey & Co.") is the ultimate parent company of McKinsey Recovery & Transformation Services U.S., LLC ("McKinsey RTS") and its consulting affiliates (collectively with McKinsey RTS, "McKinsey").² I am duly authorized to make this supplemental declaration (this "Supplemental Declaration"), which is being submitted to supplement my initial

¹ A complete list of each of the Debtors in these Chapter 11 Cases may be obtained on the website of the Debtors' proposed claims and noticing agent at <http://cases.stretto.com/Valaris>. The location of Debtor Ensco Incorporated's principal place of business and the Debtors' service address in these Chapter 11 Cases is 5847 San Felipe Street, Suite 3300, Houston, Texas 77057.

² The term "McKinsey" includes any McKinsey entity that provides consulting (including bankruptcy advisory) services. The term "McKinsey" does not include investment affiliate MIO Partners, Inc. and its affiliated investment and advisory services related entities or their employees because they do not provide consulting and bankruptcy advisory services.

declaration (the “Initial Declaration”) filed on September 18, 2020, in support of the Application.³

2. I submit this Declaration in accordance with sections 327(a) and 328(a) of title 11 of the United States Code (the “Bankruptcy Code”), Rules 2014(a), 2016, and 5002 of the Federal Rules of Bankruptcy Procedure, and Rules 2014-1 and 2016-1 of the Bankruptcy Local Rules for the Southern District of Texas.

3. Except as otherwise noted, the statements set forth herein are based on knowledge I have from my employment position and diligence undertaken by me or professionals working with me and, if called and sworn as a witness, I would testify competently thereto.

4. As noted in the Initial Declaration, at the time the Initial Declaration was filed the Working Group was still working diligently to finalize the review of McKinsey’s client and other relationships with parties-in-interest in the Chapter 11 Cases, including supplemental names received by McKinsey on September 18, 2020. This Supplemental Declaration and its schedules set forth the results of the Working Group’s completed process.

Disclosure Regarding Disinterestedness of the Proposed Professionals

Client Connections

5. As described in more detail in the Initial Declaration, the Proposed Professionals⁴ undertook a comprehensive process to determine whether they had any connections or other relationships that might cause them to hold or represent an interest adverse to the Debtors. Specifi-

³ All capitalized terms used but not defined herein shall have the meanings set forth in the Application and the Initial Declaration.

⁴ As described in the Initial Declaration, the Proposed Professionals are McKinsey RTS, McKinsey Recovery & Transformation Services UK Limited (“McKinsey RTS UK”), McKinsey US, McKinsey & Company, Inc. United Kingdom (“McKinsey UK”), McKinsey & Company, Inc. Austria (“McKinsey Austria”) and McKinsey & Consulting Company Inc., Shanghai (“McKinsey Shanghai”).

cally, counsel for the Proposed Professionals received a list of potential parties in interest (the “Initial Interested Parties List”) from Debtors’ counsel on August 24, 2020.

6. Shortly before filing the Initial Declaration, Debtors’ counsel provided counsel for the Proposed Professionals with the names of additional potential parties in interest (the “Supplemental Interested Parties”), which the Working Group added to the Initial Interested Parties List, the “Consolidated Interested Parties List”). The Consolidated Interested Parties List is attached hereto as **Schedule 1**. The Working Group used the same process described in paragraph 12 of the Initial Declaration to expand the list of Supplemental Interested Parties to include all corporate affiliates that shared a common parent with each Supplemental Interested Party (the “Supplemental Expanded IPL”). This was added to the Expanded IPL of the Initial Interested Parties List, resulting in the “Consolidated Expanded IPL.” The people and entities listed on the Consolidated Expanded IPL are the “Consolidated Expanded Interested Parties”.⁵ In sum, the Supplemental Expanded IPL expanded the five unique Supplemental Interested Parties into 119 unique parties.⁶

7. The Working Group then used the same process described in the Initial Declaration to check the names on the Client List⁷ against the Supplemental Expanded IPL. The resulting matches and certain additional Client List matches to the Consolidated Expanded IPL that were identified after the Initial Declaration was filed are set forth on **Schedule 2** attached hereto.

⁵ Because of the voluminous nature of the Supplemental Expanded IPL and Consolidated Expanded IPL, they are not attached to this Supplemental Declaration. Copies are available upon request to the Proposed Professionals’ counsel.

⁶ The Protocol does not require such an expansion of the Interested Parties List. The Proposed Professionals undertook this analysis out of an abundance of caution, in part to account for the lack of a computerized conflict-checking database.

⁷ In paragraph 13 of the Initial Declaration, I stated that the Client List was comprised of 14,523 client names. Upon further review, it was determined that the Client List was comprised of 15,127 names.

8. In addition to the connection checking process described above, the Working Group confirmed that the survey process followed and described in the Initial Declaration also accounted for any connections identified as part of this process.

9. To the best of my knowledge, based on the results of the Surveys, McKinsey's connections set forth on Schedule 2 to the Initial Declaration or **Schedule 2** attached hereto (a) do not constitute interests adverse to the Debtors and (b) except as otherwise set forth in the Initial Declaration or below, involve matters unrelated to the Debtors.

Vendor Connections and Banking Relationships

10. The Working Group also compared McKinsey's records of ordinary-course vendor and banking relationships during the Look-Back Period against the Consolidated Expanded IPL. The results relating to such ordinary-course vendor and banking relationships are set forth on **Schedule 2** attached hereto. To the best of my knowledge, as ordinary-course vendor and banking relationships, none of these relationships constitute interests adverse to the Debtors.

MIO Disclosures

11. As explained in more detail in the Initial Declaration, consistent with the Protocol, counsel for the Proposed Professionals sent the Consolidated Interested Parties List and the Consolidated Expanded IPL to counsel for MIO to facilitate MIO's search for connections. MIO then compared such lists to a list, compiled to the best of its knowledge, of its third-party investment managers, direct investments, financial counterparties and service providers (such as vendors). Counsel for MIO then delivered the results of this comparison to counsel for the Proposed Professionals, and the resulting matches are set forth on **Schedule 3** attached hereto. Based on the results provided by MIO, to the best of my knowledge, none of these relationships

result in any of the Proposed Professionals holding or representing an interest adverse to the Debtors.

12. To the best of my knowledge, based on the results of the Surveys, no member of the Engagement Team served on the MIO board of directors, or worked with any members of that board in their capacities as board members, during the Look-Back Period.

Other Disclosures

13. In accordance with the Protocol, because, as noted in the Initial Declaration, McKinsey does not maintain a computerized conflicts database, McKinsey RTS, on behalf of McKinsey, retained BDO USA, LLP (“BDO”) to assess the adequacy of the connections-checking procedures used by the Working Group to identify and disclose connections. Upon completion of its assessment of those procedures, BDO determined that the procedures performed by the Working Group on behalf of the Proposed Professionals to identify connections as disclosed in the Krivin Declarations to the Court in these Chapter 11 Cases were reasonable, adequate and consistent with the general guidelines and recommendations in the Protocol. A copy of BDO’s report is attached hereto as Exhibit A.

14. Other than as disclosed below, no client listed on Schedule 2 to the Initial Declaration or Schedule 2 attached hereto accounted for more than 1.00% of the gross revenue of McKinsey or any of the Proposed Professionals during the period from September 1, 2019 through August 31, 2020 (the “Revenue Period”). To the best of my knowledge, based on the results of the Surveys, none of the services provided to any of these clients is or was related to the Debtors or their Chapter 11 Cases.

15. To the best of my knowledge, Allianz accounted for between 1.01-3.00% of McKinsey’s gross revenue during the Revenue Period. To the best of my knowledge, based on

the results of the Surveys, none of the services provided to this client is or was related to the Debtors or their Chapter 11 Cases.

16. To the best of my knowledge, other than the Debtors, the following clients accounted for more than 1.00% of McKinsey RTS's gross revenue during the Revenue Period. To the best of my knowledge, based on the results of the Surveys, none of the services provided to any of these clients is or was related to the Debtors or their Chapter 11 Cases.

- a. Freeport-McMoRan Inc., Goldman Sachs Group, Royal Dutch Shell, The Hartford Financial Services Group Inc., Dentsply Sirona, NRG Energy Inc., and Covetrus, Inc. each accounted for 1.01–3.00% of McKinsey RTS's gross revenue during the Revenue Period.
- b. Laureate Education, Inc. accounted for 3.01–5.00% of McKinsey RTS's gross revenue during the Revenue Period.
- c. American International Group (AIG) and Johnson Controls Inc. each accounted for 5.01–9.00% of McKinsey RTS's gross revenue during the Revenue Period.

17. To the best of my knowledge, other than the Debtors, the following clients accounted for more than 1.00% of McKinsey RTS UK's gross revenue during the Revenue Period. To the best of my knowledge, based on the results of the Surveys, none of the services provided to any of these clients is or was related to the Debtors or their Chapter 11 Cases.

- a. Banco Santander SA and Dentsply Sirona each accounted for 3.01–5.00% of McKinsey RTS UK's gross revenue during the Revenue Period.
- b. American International Group (AIG) accounted for 9.01–12.00% of McKinsey RTS UK's gross revenue during the Revenue Period.

18. To the best of my knowledge, the following clients accounted for more than 1.00% of McKinsey US's gross revenue during the Revenue Period. To the best of my knowledge, based on the results of the Surveys, none of the services provided to any of these clients is or was related to the Debtors or their Chapter 11 Cases.

- a. AT&T and Johnson Controls Inc. each accounted for 1.01–3.00% of McKinsey US's gross revenue during the Revenue Period.

19. To the best of my knowledge, the following clients accounted for more than 1.00% of McKinsey UK's gross revenue during the Revenue Period. To the best of my knowledge, based on the results of the Surveys, none of the services provided to any of these clients is or was related to the Debtors or their Chapter 11 Cases.

- a. BP plc, DXC Technology Company, Royal Dutch Shell, AON Corporation, Banco Santander SA, Tata Sons, BT Group plc, NOKIA, Capita plc, Nationwide Building Society, and Bank of Ireland each accounted for 1.01–3.00% of McKinsey UK's gross revenue during the Revenue Period.

20. To the best of my knowledge, other than the Debtors, the following clients accounted for more than 1.00% of McKinsey Austria's gross revenue during the Revenue Period. To the best of my knowledge, based on the results of the Surveys, none of the services provided to any of these clients is or was related to the Debtors or their Chapter 11 Cases.

- a. Merck KGAA, ams AG, Volkswagen AG, and NOKIA each accounted for 1.01–3.00% of McKinsey Austria's gross revenue during the Revenue Period.

- b. Allianz, Brose Fahrzeugteile GmbH, and Deutsche Telekom AG each accounted for 3.01–5.00% of McKinsey Austria’s gross revenue during the Revenue Period.

21. To the best of my knowledge, the following clients accounted for more than 1.00% of McKinsey Shanghai’s gross revenue during the Revenue Period. To the best of my knowledge, based on the results of the Surveys, none of the services provided to any of these clients is or was related to the Debtors or their Chapter 11 Cases.

- a. China Construction Bank (CCB), Bank of China, SASAC, HSBC Holdings plc, Du Xiaoman Financial, China Minsheng Banking Co. Ltd., and Hitachi Ltd. each accounted for 1.01–3.00% of McKinsey Shanghai’s gross revenue during the Revenue Period.
- b. Ping An Insurance (Grp) Co. of China Ltd. accounted for 3.01–5.00% of McKinsey Shanghai’s gross revenue during the Revenue Period.

22. As described in more detail in the Initial Declaration, McKinsey’s consulting affiliates provide services to an array of clients in restructuring and turnaround engagements. To the best of my knowledge, (i) all such relationships during the Look-Back Period are set forth in the Initial Declaration, described herein or listed on **Schedule 2** hereto or Schedule 2 to the Initial Declaration, and (ii) based on the review process conducted, as described in more detail in the Initial Declaration, (a) none of these relationships constitute interests adverse to the Debtors and (b) except as otherwise set forth in the Initial Declaration or below, all of these relationships involved consulting matters unrelated to the Debtors.

23. As described in more detail in the Initial Declaration, from time to time, McKinsey provides overall strategic analysis and advice to companies that operate in the oil, electric

power, and natural gas industries in which the Debtors operate, which analysis and advice could include review of and comment on strategic considerations with respect to the Debtors, among others, based on publicly available information. To the best of my knowledge, (i) all such relationships during the Look-Back Period are set forth in the Initial Declaration, described herein or listed on **Schedule 2** hereto or Schedule 2 to the Initial Declaration, and (ii) based on the review process conducted, as described in more detail in the Initial Declaration, (a) none of these relationships constitute interests adverse to the Debtors and (b) except as otherwise set forth in the Initial Declaration or below, all of these relationships involved consulting matters unrelated to the Debtors.

24. As described in more detail in the Initial Declaration, as part of its practice, McKinsey provides support to clients on purchasing and supply management relating to direct and indirect materials and services, including in the oil, electric power, and natural gas sectors. To the best of my knowledge, (i) all such relationships during the Look-Back Period are set forth in the Initial Declaration, described herein or listed on **Schedule 2** hereto or Schedule 2 to the Initial Declaration, and (ii) based on the review process conducted, as described in more detail in the Initial Declaration, (a) none of these relationships constitute interests adverse to the Debtors and (b) except as otherwise set forth in the Initial Declaration or below, all of these relationships involved consulting matters unrelated to the Debtors.

25. Certain professionals employed by McKinsey may have mortgages, consumer loans, investments, brokerage accounts, or other banking, brokerage or customer relationships with the Consolidated Expanded Interested Parties or with funds sponsored by or affiliated with such parties. The results of the Surveys establish that no such professional holds an interest adverse to the Debtors.

26. Certain McKinsey consulting affiliates, from time to time, have received non-cash compensation (such as equity securities or equity-like interests in a client) pursuant to alternative fee arrangements. To the best of my knowledge, McKinsey has no such relationship with any entity on the Consolidated Interested Parties List.

27. Based on the results of the Surveys, no professional employed by McKinsey holds or held interests in equity securities issued by the Debtors while McKinsey was engaged to do work for the Debtors (including prepetition).

28. To the best of my knowledge based on the results of the Surveys, no other professional of McKinsey is related or connected to, any United States Bankruptcy Judge for the Southern District of Texas or the United States Trustee, or any employee in the Office of the United States Trustee for Region 7, except in each case as described in the Initial Declaration.

29. In the ordinary course of business, McKinsey is at times engaged to serve as a subcontractor on a larger service contract for a client. For completeness, (i) the ultimate end clients for services during the Look-Back Period are set forth on Schedule 2 to the Initial Declaration or **Schedule 2** attached hereto and (ii) the prime contractor (or their equivalent) for which McKinsey was engaged during the Look-Back Period, and that are on the Consolidated Expanded IPL, are identified here: ABT, ASI, Atlas, Deloitte, First Data, Grant Thornton LLC, Infosys, Kilda, Macfadden, Microsoft, MITRE, RTI, Synergy, Trilogy, and United Healthcare Services, Inc.

30. McKinsey & Company, Inc. is party to a joint venture with Lufthansa Technik AG (“Lufthansa”), which is identified on the Consolidated Expanded IPL (and on **Schedule 2**) as affiliated with two Interested Parties, Kongsberg Maritime Cm China Ltd. and Rolls-Royce Marine North America Inc. The joint venture, Lumics, provides consultancy services for industrial

manufacturing and production companies. To the best of my knowledge, in light of the attenuated nature of these connections, this relationship does not constitute an interest adverse to the Debtors.

31. From time to time, McKinsey provides analysis and studies to multiple entities that operate in the same industry or market. Such studies generally involve benchmarking, capability building, executive training, and events. It is possible that certain participants may be Consolidated Expanded Interested Parties, including competitors of the Debtors. To the best of my knowledge, (a) none of such studies involved the Debtors or any of the Debtors' confidential information, and (b) in light of the nature of the analysis and studies provided, none of these relationships constitute interests adverse to the Debtors.

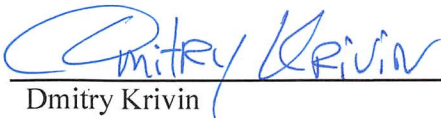

32. Accordingly, except as otherwise set forth herein, insofar as I have been able to determine after reasonable inquiry, neither the Proposed Professionals, nor their consulting affiliates, nor any member of the Engagement Team holds or represents any interest adverse to the Debtors or their estates, and the Proposed Professionals constitute "disinterested persons" as that term is defined in section 101(14) of the Bankruptcy Code, as modified by Bankruptcy Code section 1107(b), in that each of the Proposed Professionals and each member of the Engagement Team:

- a. is not a creditor, equity security holder, or insider of the Debtors;
- b. was not, within two years before the date of filing of the Debtors' chapter 11 petitions, a director, officer, or employee of the Debtors; and
- c. does not have an interest materially adverse to the interest of the Debtors' estates or any class of creditors or equity security holders, by reason of any direct or indirect relationship to, connection with, or interest in, the Debtors, or for any other reason.

33. The Proposed Professionals will endeavor to further supplement this Declaration in the event they become aware of any relationship or other information that requires disclosure.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge.

DEFINED TERMS¹

- **AMA:** The Protocol defines Asset Management Affiliates to be “an affiliate or division of a Proposed Professional that is actively engaged in managing or owning financial investments.”
- **Baker Protocol (“Protocol”):** Exhibit A to McKinsey Recovery & Transformation Services U.S., LLC’s (“RTS”) Eighth Status Report in Accordance with Order on Joint Motion in Furtherance of Mediation Agreement [Dkt 1427], dated May 31, 2019 filed in the Westmoreland Coal Company, et al., bankruptcy case no. 18-35672. The Protocol “addresses the complex legal and business issues surrounding the disclosure obligations arising from a Proposed Professional’s retention under Section 327 in bankruptcy cases involving more than \$50 million in claims.”²
- **BDO Report:** This report dated October 1, 2020 prepared by BDO USA, LLP (“BDO”) regarding BDO’s assessment of McKinsey & Company’s Inc.’s (“McKinsey & Co.”) procedures to disclose Connections in accordance with the Baker Protocol in the Valaris PLC et al. bankruptcy cases. McKinsey & Co. is the ultimate parent company of McKinsey RTS.
- **Client Serving Professional (“CSP”):** McKinsey professional that provides services to clients. CSPs provide either consulting services directly for clients or indirect services such as internal research for project teams.
- **Connection:** The Protocol defines Connection to be an “association or relationship with an IPL Party that a reasonable person might find bears on whether the Proposed Professional ‘holds or represents an interest adverse to the estate’ and is ‘disinterested’ under Section 327 of the Bankruptcy Code.” McKinsey has chosen to conduct its procedures to identify connections beyond the requirements stated in the Protocol by disclosing Connections for all McKinsey Affiliates.
- **Debtors:** See definition for Valaris below.
- **Direct Connection:** The Protocol defines Direct Connection to be “a known Connection between a Proposed Professional and an IPL Party.”
- **Director of Client Service (“DCS”):** Project leader assigned to client projects responsible for maintaining the client relationship and the overall execution of the project. There can be multiple DCSs working on different projects for an individual client.
- **Expanded Interested Parties List (“Expanded IPL”):** The additional entities consisting of related parties such as corporate parents or subsidiaries voluntarily added to the Interested Parties List or IPL (as defined below) by The Proposed

¹ Defined Terms from the Baker Protocol as are stated in the Protocol’s Defined Terms, pages 3-4.

² Baker Protocol, Summary, page 1.

Professionals (as defined below).

- **Gross Office Contribution (“GOC”)**: A unique identification code assigned to each McKinsey office. Each GOC is associated with a McKinsey legal entity.
- **Indirect Connection**: The Protocol defines Indirect Connection to be “a known Connection between an IPL Party and a Proposed Professional’s Unretained Affiliate (including an AMA)” or “a known Connection arising from a relationship between a Proposed Professional’s Unretained Affiliate (including an AMA) and a third party, which third party, in turn, has a Connection with an IPL Party.”
- **Interested Parties (“Valaris IPs”)**: Entities included on the Valaris IPL.
- **Interested Parties List (“IPL”)**: The Protocol defines IPL to be “a list of parties with connections to the debtor’s estate (other than *de minimis* connections).” In the BDO Report, IPL refers to the interested parties listed on the Valaris IPL provided by Debtors’ counsel on August 24, 2020, including the additional names provided by Debtors’ counsel on September 18, 2020.
- **Kravin Declarations**: Refers to the Declaration and Supplemental Declaration of Dmitry Kravin in Support of the Debtors’ Application for Entry of an Order (I) Authorizing the Retention and Employment of McKinsey Transformation Services U.S. LLC and Certain of its Affiliates to Provide Certain Ordinary Course Consulting Services to the Debtors Effective as of the Petition Date and (II) Granting Related Relief, dated September 18, 2020 and October 1, 2020, respectively.
- **McKinsey**: Refers to all McKinsey & Co. subsidiaries that provide consulting (including bankruptcy advisory) services. The term “McKinsey” does not include investment affiliate MIO Partners, Inc. and its affiliated investment and advisory services related entities or their employees as MIO Partners, Inc. does not provide consulting or bankruptcy advisory services.
- **Look-Back Period**: Refers to the time period May 26, 2017 through August 31, 2020.
- **Post-Petition Period**: Refers to the time period August 19, 2020 through September 11, 2020.
- **Proposed Professionals**: The Protocol defines Proposed Professional to be “a professional person or entity proposed to be retained in connection with a pending bankruptcy case under Section 327.” In the Valaris bankruptcy case, the McKinsey entities (all wholly-owned indirect subsidiaries of McKinsey & Co.) that employ the members of the Engagement Team are:
 - McKinsey RTS,
 - McKinsey Recovery & Transformation Services UK Limited (“McKinsey RTS UK”),

- McKinsey & Company, Inc. United States (“McKinsey US”),
- McKinsey & Company, Inc. United Kingdom (“McKinsey UK”),
- McKinsey & Company, Inc. Austria (“McKinsey Austria”), and
- McKinsey & Consulting Company Inc. Shanghai (“McKinsey Shanghai”).

These Proposed Professionals are also called the Retained Affiliates. McKinsey & Co. has elected to file connection disclosures beyond the requirements of the Baker Protocol. As such, the term “Proposed Professionals” in this report includes all McKinsey consulting subsidiaries as defined above.

- **Proposed Professional Personnel:** The Protocol defines Proposed Professional Personnel to be “the primary working group within a Proposed Professional entity that directly provides the services for which the Proposed Professional is retained in the particular bankruptcy case, and excludes personnel that only episodically provide such services.” For the Proposed Professionals, this refers to the engagement team as described in the Krivin Declaration dated September 18, 2020, paragraph 5.
- **Revenue Period:** Refers to the time period from September 1, 2019 through August 31, 2020.
- **S&P Capital IQ:** (“CapIQ”) A market intelligence platform designed by Standard and Poor’s (“S&P”) that utilizes software and analytics to consolidate detailed company information for U.S. and international public and private companies and investment firms. Additionally, CapIQ is a database that houses data related to corporate ownership including corporate families.
- **Service Contract:** Refers to a consulting agreement with McKinsey RTS dated December 11, 2019 (“Consulting Agreement”) and a service agreement dated as of April 9, 2020 (together with the Consulting Agreement, and as amended by that certain amendment and addendum dated as of July 1, 2020 (the “Service Contract”) with the Debtors. While the Service Contract is between the Debtors and McKinsey RTS, McKinsey RTS utilizes certain consultants employed by its affiliates in providing services to the Debtors.
- **Valaris:** Refers to Valaris PLC and its affiliated debtors (together, “Valaris” or the “Debtors”) in the Chapter 11 bankruptcy cases in the United States Bankruptcy Court for the Southern District of Texas.
- **The Working Group:** Refers to The Working Group described in the Krivin Declaration dated September 18, 2020, paragraph 8.
- **Unretained Affiliate:** The Protocol defines an Unretained Affiliate to be “an affiliate of a Proposed Professional other than a Retained Affiliate.”

I. INTRODUCTION

A. Scope of Retention

BDO USA, LLP (“BDO”), was retained by McKinsey Restructuring and Transformation Services U.S., LLC (“RTS”) as an independent third party to assess the reasonableness and adequacy of the Proposed Professionals’ procedures to identify and appropriate disclose Connections in accordance with the Baker Protocol in the Valaris Chapter 11 bankruptcy cases.

B. Limitations of Analysis Performed

The data and information referenced herein³ regarding The Working Group’s procedures to review its connections to the Valaris IPL, and all the information we considered and tested, was provided to us by The Working Group’s personnel or through data available through the S&P Capital IQ platform and S&P Capital IQ Xpressfeed.⁴

The analysis performed by BDO, and any resulting findings and conclusions, are based on the information made available to us. New information that might be provided to us subsequent to the issuance of this report (the “BDO Report”) could affect the results or our analysis or conclusions. We reserve the right to update the BDO Report to reflect any new information which becomes available to us subsequent to the date of the issuance of the BDO Report.

BDO understands that the BDO Report will be disclosed in the Supplemental Krivin Declaration dated October 1, 2020 in connection with the Valaris bankruptcy matter, but should not be used for any other purpose.

³ The Working Group provided BDO with all data requested by BDO.

⁴ BDO did not conduct audits of financial records as required by Generally Accepted Auditing Standards on any of the materials in the BDO Report that we obtained from The Working Group.

II. SUMMARY OF FINDINGS AND OPINIONS

The Proposed Professionals developed and implemented reasonable and adequate procedures in accordance with the general guidelines and recommendations included in the Protocol to identify and disclose Connections. These procedures included the review and expansion of the Valaris IPL, the identification of Direct Connections arising from the Proposed Professionals, and the identification of Indirect Connections arising from Unretained Affiliates.

The Working Group utilized the Valaris IPL, which contained 1,515⁵ entities, and voluntarily performed additional procedures to expand the Valaris IPL to include all corporate affiliates and related parties that shared a common parent with each corporate party listed on the Valaris IPL.

In accordance with the Protocol, The Working Group developed reasonable and adequate procedures to identify and appropriately disclose Direct Connections to 1,260 unique Interested Parties on the Valaris IPL. The Working Group procedures included:

- Identifying the Proposed Professionals,
- Gathering McKinsey's client, vendor and banking relationship information,
- Comparing the relationship information to the Expanded IPL, and
- Sending out surveys to Proposed Professional Personnel and reviewing the responses.

The Proposed Professionals were identified based upon professional time charged to the Debtors during the Post-Petition period for client facing activities.

The Working Group extracted McKinsey's client, vendor, and banking relationships from various in-house systems during the Look-Back Period. The Working

⁵ Includes 1,623 Valaris IPs received by The Working Group on August 24, 2020 plus an additional 5 unique Valaris IPs received on September 18, 2020, less 113 identified duplicate entities (1,623 - 113 + 5 = 1,515).

Group then compared these entities against the Expanded IPL to identify Connections, which resulted in the identification of client Connections for 763⁶ Interested Parties, vendor Connections for 401 Interested Parties, and bank relationships for 96 Interested Parties, which were appropriately disclosed.

The Working Group sent three different surveys to groups of employees: the Firm-wide CSP Surveys, the DCS Surveys, and the Engagement CSP Surveys, which are discussed in more detail in the following paragraphs.

First, in accordance with the Protocol, The Working Group developed reasonable and adequate procedures to identify and appropriately disclose Direct and Indirect Connections for Valaris IPs by sending questionnaires to Proposed Professionals' CSPs (the "Firm-wide CSP Surveys") and inquiring whether the professionals (i) held debt, equity or other claims against any of the Debtors (other than investments, including through mutual funds and other investment vehicles that are managed by third parties with delegated investment authority and discretion, at any time on or after May 21, 2020⁷; (ii) previously worked for the Debtors; or (iii) had any connections to any of the Bankruptcy Judges, to the United States Trustee, or to anyone employed in the office of the United States Trustee, in each case for the Southern District of Texas. Based upon the results of the surveys, The Working Group did not identify any items to be disclosed.

Second, The Working Group sent a survey to all the Directors of Client Services (the "DCS Surveys") for McKinsey's client relationships identified from the Expanded

⁶ Represents 358 client connections disclosed in the Preliminary Krivin Declaration on September 18, 2020 plus an additional 405 client connections disclosed in the Supplemental Krivin Declaration on October 1, 2020 from the additional IPs received on September 18, 2020 (358 + 405 = 763).

⁷ 90 days prior to the Bankruptcy petition date of August 19, 2020.

IPL to determine whether the client Connection had any relation to the Debtors. Based upon the results of the surveys, The Working Group received two⁸ responses that were resolved and disclosed as appropriate.

Third, The Working Group sent the Valaris IPL and surveys to each professional that charged time during the Post-Petition Period to the Debtors (the “Engagement CSP Surveys”) to identify whether the member (i) had personal Connections with parties on the IPL; (ii) knew of any person or entity not included on the IPL that should have been included, to the member’s knowledge, because the party was an interested party in the Debtors’ Chapter 11 Cases; (iii) had worked with anyone who, during the Look-Back Period, was a member of the MIO Partners Inc. (“MIO”) board of directors and whether the member ever discussed MIO investments with the director; and/or (iv) was related to or had a relationship with any such MIO director other than arising out of having McKinsey as a common employer. Based upon the results of these surveys, The Working Group did not identify any items to be disclosed.

In accordance with the Protocol, the Proposed Professionals developed reasonable and adequate procedures to identify and appropriately disclose Indirect Connections for Valaris IPs by reporting on its AMA Connections to the Expanded IPL, of which Indirect Connections for 92 Interested Parties were identified and appropriately disclosed.

THE REST OF THIS PAGE IS INTENTIONALLY LEFT BLANK

⁸ See Section IV.B.4 for further information on the surveys and results.

III. BACKGROUND

On August 19, 2020, Valaris filed voluntary Chapter 11 petitions in the United States Bankruptcy Court for the Southern District of Texas.

On May 31, 2019, RTS filed the Protocol with the Bankruptcy Court in the Westmoreland Coal Company case.⁹ The Protocol was developed by Jan Baker and Paul Singerman for review of connections in bankruptcy cases. The Protocol “... *provides general guidance regarding how Proposed Professionals may obtain information and make proper disclosures to support their retention in U.S. bankruptcy cases that are within the scope of the Protocol.*”¹⁰ The Protocol states that a Proposed Professional should perform the following general procedures to obtain knowledge regarding potential Connections in support of its disclosures:

1. Obtain and review the IPL,
2. Establish a process to check a Proposed Professional’s client database,
3. Distribute the IPL to Type 2, 3 and 4 Asset Management Affiliates (“AMAs”) and request them to report any Connections to the Proposed Professional, and
4. Send written inquiries (e.g., Questionnaires) to the Proposed Professional’s professional personnel and Unretained Affiliates.¹¹

The Protocol focuses on a Proposed Professional’s disclosures regarding Connections to parties identified on the debtor’s interested party list, which could impact the Proposed Professional’s disinterestedness. The Protocol distinguishes between Direct and Indirect Connections arising from the different kinds of affiliates of the Proposed Professional.¹² The Protocol also acknowledges that Proposed

⁹ Application of Debtors Pursuant to 11 U.S.C. §§ 363(b) and 105(a) For Authority To Enter Into, Perform Under And Make Payments Under Certain Consulting Contracts With McKinsey & Company, Inc. United States, DI#3919, filed 9/17/19 (pages 11-12).

¹⁰ Baker Protocol, Introduction (page 6).

¹¹ Baker Protocol, Section 7 “Determination of Whether a Connection Exists” (page 12).

¹² Baker Protocol, Sections 1-3 (pages 7-9).

Professionals may deviate from the suggested data gathering procedures and disclosure recommendations based on the facts and circumstances of a particular matter.¹³ Therefore, the Protocol provides a Proposed Professional with some flexibility to decide how to best implement the general guidance and recommendations.

For entities with a significant number of professionals, like the Proposed Professionals, the Protocol recommends using a software-based process to identify Connections. If a software-based process is not available, the Protocol states the Proposed Professional “may retain an independent third party to assess the adequacy of the alternative procedures the Proposed Professional uses to identify and appropriately disclose Connections.”¹⁴

On September 18, 2020, the Debtors filed a retention application with the Bankruptcy Court for authority to retain RTS to provide ordinary course consulting services.¹⁵ In September 2020, RTS, on behalf of the Proposed Professionals, engaged BDO as an independent third party to assess the reasonableness and adequacy of the Proposed Professionals’ procedures to identify and appropriately disclose Connections in accordance with the Protocol. BDO’s procedures did not include an assessment of the adequacy of the general guidance and recommendations within the Protocol.

¹³ Baker Protocol, Introduction (page 6).

¹⁴ Baker Protocol, Section 7 “Determination of Whether a Connection Exists” (page 13).

¹⁵ Docket Number 233 “*Application for Entry of an Order (I) Authorizing the Retention and Employment of McKinsey Recovery & Transformation Services, U.S., LLC and Certain of its Affiliates to Provide Certain Ordinary Course Consulting Services to the Debtors Effective as of the Petition Date and (II) Granting Related Relief.*” The consulting services are pursuant to a consulting agreement dated December 11, 2019 (“Consulting Agreement”) and a service agreement dated as of April 9, 2020 (together with the Consulting Agreement, and as amended by that certain amendment and addendum dated as of July 1, 2020 (the “Service Contract”).

IV. ASSESSMENT OF THE WORKING GROUP'S PROCEDURES TO DISCLOSE CONNECTIONS

The Proposed Professionals' procedures for identifying relationships with the Valaris IPL included the following:

- Reviewed and expanded the Valaris IPs,
- Identified Direct Connections arising from the Proposed Professionals, and
- Identified Indirect Connections arising from Unretained Affiliates, including AMAs.

A. Review and Expansion of the Valaris IPL

1. Review of the Valaris IPL

The Working Group Procedures:

The Protocol recommends that a Proposed Professional obtain knowledge of whether Connections exist by obtaining and reviewing a copy of the IPL from the debtor.¹⁶ The Protocol states that Proposed Professionals “...*can reasonably and in good faith rely on the list of IPL Parties.*”¹⁷

The Proposed Professionals received the Valaris IPL from Valaris' counsel on August 24, 2020. The Valaris IPL consisted of 1,628¹⁸ parties.

The Working Group performed a process to identify all interested parties as either corporations, governments or individuals and prepared the Valaris IPL to develop the Expanded IPL.

The Working Group performed the following procedures on the 1,628 entities on the Valaris IPL as follows:

- Reviewed and reclassified each of the 1,628 parties on the Valaris IPL into one

¹⁶ Baker Protocol, Section 1.b. (page 7).

¹⁷ Baker Protocol, Section 7.a. (page 12).

¹⁸ The Valaris IPL received on August 24, 2020 contained 1,623 IPs and an additional 5 IPs were received on September 18, 2020. The Valaris IPL included 113 duplicate entities that were removed to arrive at 1,515 Valaris IPs (1,623 + 5 - 113 = 1,515).

of the following three categories: 1) Corporate Parties or “Corporate IPs”, 2) Governmental Parties, or 3) Individuals. Note that this reclassification process was a manual process, and if there was any doubt, a Valaris IP was classified as a Corporate IP out of an abundance of caution.

- Utilized the Microsoft Excel REMOVE DUPLICATES function to identify and remove duplicate Interested Parties, which resulted in a reduction of the Valaris IPL by 113 Parties from 1,628 to 1,515 entities.
- Quantified the Valaris IPs on the Valaris IPL by reclassified category, after performing the procedures above, which resulted in 1,224 Corporate Parties, 92 Governmental Parties, and 199 Individuals.
- Executed a StripAccent Visual Basic module in Excel to remove foreign characters.¹⁹
- Utilized the S&P Capital IQ formula function in Excel²⁰ to identify S&P Capital IQ identification numbers (“Cap IQ IDs”) for the 1,224 Corporate Parties and 92 Government Parties (1,316 total parties searched) on the Valaris IPL to be used to query each corporate tree structure. Of the 1,316 Corporate and Government Parties researched, 544 were determined to be exact matches and returned the corresponding Cap IQ ID, 606 entities were determined to have approximate/multiple matches and CAP IQ IDs could not be found for 166 entities. The Working Group used the S&P Capital IQ website to manually review the results for the 166 non-matched entities and 606 approximate/multiple match entities. In instances where the approximate/multiple matches could not be refined, a conservative stance was taken, resulting in an additional 301 entities being added to the list of unique Cap IQ IDs. This process resulted in a list of 1,617 unique Corporate and Government Parties (the 1,316 entities after de-duplication plus the 301 additional entities added for approximate/multiple matches).
- Using the Cap IQ Excel formula “=CIQ(CIQ ID, “ULT_CORP_PARENT”)”, performed a search for the Ultimate Corporate Parent Cap IQ ID for each of the unique 1,617 corporate and government entities. The result of this process returned up to five names associated for each of the Corporate and Government Parties that were used to identify an Ultimate Corporate Parent and identified 1,451 Ultimate Corporate Parents to be used in creating the corporate trees in the

¹⁹ The StripAccent Visual Basic Module is used inside of Excel to convert foreign characters (with accents or tildes) to standard characters for use with the S&P Capital IQ toolbar.

²⁰ When an entity name is entered into the “SPIQ Identifier Converter”, a third-party Microsoft Excel tool created by S&P Capital IQ, the formulas return up to five names and ID numbers associated with the entity name entered. These five names were used in the following steps to identify an ultimate corporate parent that was used to build a corporate tree to expand the Valaris IPL.

Expanded IPL.

The Working Group emailed 18 client-serving Proposed Professional Personnel to confirm whether they were aware of any parties that should have been included on the Valaris IPL. All 18 client-serving Proposed Professional Personnel responded and indicated no additional parties needed to be added to the IPL. See Section IV.B.4.b for further discussion of the surveys sent to the Proposed Professionals' personnel.

BDO Review & Testing:

BDO reperformed the above procedures and agreed the results to the same 1,628 entities (1,515 entities after removing duplicates) on the Valaris IPL. Based upon BDO's review and testing of The Working Group's procedures, the Working Group's procedures are reasonable and adequate and aligned with the general guidelines and recommendations set forth in the Protocol.

2. Expansion of the Valaris IPL

The Working Group Procedures:

The Working Group elected to perform additional procedures not explicitly recommended by the Protocol to expand the Valaris IPL for Corporate Parties to include corporate affiliates and related parties.

The Working Group elected to expand the Valaris IPL to include all corporate affiliates that shared a common parent with each Corporate Party listed on the Valaris IPL, increasing the number of unique Valaris IPL Parties to 122,528.²¹ Including Corporate Parties' affiliates provided a larger number of parties that might generate

²¹ Based on the Valaris IPL received on August 24, 2020 and the additional IPs received on September 18, 2020. The total of the expanded Valaris IPs reviewed under the Protocol procedures was 122,528 (122,409 + 119).

Connections. The Working Group expanded the Valaris IPL using the following process:

- Utilizing the Cap IQ IDs for the 1,451 Ultimate Corporate Parents identified above, ran an SQL query which extracted corporate trees from S&P Capital IQ's Xpressfeed.²² The SQL query extracted corporate trees where ownership is greater than or equal to 20% for current investments. In instances where there was no percentage ownership available in Xpressfeed, the query extracted entities which were identified as merged entities, current subsidiaries, current operating units, and current operating arms.²³ The Working Group aggregated the corporate tree results (418,408 IPs²⁴), the 166 entities without Cap IQ IDs, and the 199 Individuals (as discussed above), arriving at a total of 418,773 Interested Parties on the Expanded IPL.
- The Working Group removed duplicate Corporate Parties using Alteryx Designer,²⁵ which resulted from certain Valaris IPs being part of multiple corporate trees. At this stage, the Expanded IPL of 418,773 parties was further reduced by 296,245 to 122,528 unique Valaris IPs.

The Working Group used the Expanded IPL based on the Valaris IPL in its procedures to identify Direct and Indirect Connections.

BDO Review & Testing:

BDO utilized the same SQL query to extract corporate trees from S&P Capital IQ's Xpressfeed, compared the results from both extractions (after removal of duplicates), and agreed the results to the parties present on the Proposed Professionals' Expanded IPL based on the Valaris IPL.

²² Xpressfeed is a data feed which is available from S&P Capital IQ and is updated on a daily basis (through a push point-in-time update from S&P Capital IQ). Xpressfeed allows for the retrieval of Capital IQ datasets into a relational database using the Xpressfeed Loader. This relational database can be used to analyze company relationship information through automated queries.

²³ The SQL query to extract the corporate trees first pulled entities which were identified as "Current Investments" and the percentage ownership was greater than or equal to 20%. The query then pulled entities that were identified as "Merged Entity," "Current Subsidiary/Operating Unit," and "Current Investment Arm."

²⁴ Corporate tree expansion results using Xpressfeed are comprised of 413,127 entities from the Valaris IPL received on August 24, 2020 and 5,281 entities from the 5 additional IPs received on September 18, 2020 (413,127 + 5,281 = 418,408)

²⁵ Alteryx Designer is a software platform that allows the user to process large volumes of data.

B. Identified Direct Connections

The Working Group performed four procedures to identify Direct Connections to the Valaris IPL as follows:²⁶

- Identified the Proposed Professionals,
- Obtained McKinsey's client, vendor, and banking information ,
- Compared the client, vendor, and banking information to the Expanded IPL for Connections, and
- Surveyed the Proposed Professionals' Personnel to obtain information on their personal Connections, if any.

The Proposed Professionals developed reasonable and adequate procedures in accordance with the Protocol to identify its relationships with clients, vendors, and banks and compared those relationships to the Expanded IPL based on the Valaris IPL, resulting in the disclosure of Connections to 1,260 Interested Parties as follows:

- Client Relationships: 763 Connections
- Vendor Relationships: 401 Connections
- Banking Relationships: 96 Connections

1. Identified the Proposed Professionals

The Working Group Procedures:

In accordance with the Protocol, The Working Group identified Direct Connections in the Valaris Engagement by contacting the Proposed Professionals' Personnel. The Working Group utilized the Valaris project codes to identify the Proposed Professionals' personnel using the following process:

First, McKinsey's Finance Department ran a query using its time and expense system to identify 18 CSPs that provided services and charged hours to the Valaris

²⁶ The Protocol Section 7.b., page 12, recommends that a Proposed Professional obtain knowledge of whether Direct Connections exist by performing the following two procedures: (1) perform a process to check such Professional's client databases for Connections, and (2) distribute the IPL to its Proposed Professional Personnel, request them to report any Connections (other than de minimis connections), and disclose in its retention application all Connections so reported.

project codes during the Post-Petition Period August 19, 2020 to September 11, 2020. The Proposed Professionals' professionals record their hours charged to unique project charge codes. Through their Oracle financial system, McKinsey's Finance Department and local office management create and approve project codes, which are used to track information such as the hours charged and the Gross Office Contribution ("GOC").

Second, The Working Group reviewed the list of 18 client-facing CSPs who charged hours to the Valaris project codes. The Working Group determined the work location and associated Proposed Professional legal entity for the 18 CSPs by reviewing each professional's GOC code. The Working Group then used McKinsey's client, vendor and banking relationship information to identify the Proposed Professionals' Connections to parties on the Expanded IPL based on the Valaris IPL.

BDO Review & Testing:

BDO reviewed the query utilized by The Working Group to extract the project code data and reviewed the resulting extracted information. BDO also reperformed The Working Group's procedures to determine the Proposed Professional personnel that were used to develop the list of Proposed Professionals. Based upon BDO's review and testing of The Working Group's procedures, BDO determined that the Proposed Professionals' procedures were reasonable and adequate to identify the Proposed Professionals in accordance with the Protocol.

2. Identify McKinsey's Third-Party Relationships

The Protocol recommends that Proposed Professionals check their firms' internal databases for Connections to clients. In addition to checking client databases, The Working Group decided to perform additional procedures not explicitly

recommended by the Protocol to check its internal databases for vendor and banking relationships. In order to identify third-party relationships for comparison to the Expanded IPL based on the Valaris IPL, The Working Group obtained information from their Finance and Treasury Departments on McKinsey's clients, vendor and banking relationships for the Look-Back Period.

McKinsey's client and vendor relationship data are maintained by its Finance Department within its Oracle financial system database, which contains all of the firm's client, project-related data and vendor information. The vendor database maintains invoice line item level data and general ledger accounting details. This database is updated daily with an automated feed from the Oracle payment data and tracks vendor payments to the legal entity submitting the payment.

McKinsey's banking relationship information, including all bank accounts, is contained within its Kyriba²⁷ database maintained by its Corporate Treasury Department. When a new banking relationship is established, or when an existing bank account is closed, the U.S. Corporate Treasury team updates Kyriba with the appropriate information. The global list of bank accounts is reviewed annually by McKinsey's legal entities and local offices.

The Working Group Procedures:

a. Client Relationships

The Working Group obtained McKinsey's project codes to identify McKinsey's

²⁷ Kyriba is a treasury management cloud-based solution which provides cash management technology on a global scale. The database stores information relating to account balances, transactions, as well as supporting documentation as accounts are opened and closed.

clients for comparison to the Expanded IPL based on the Valaris IPL²⁸. The Working Group collected the client data for McKinsey's CSPs during the Look-Back Period as follows:

- The Working Group used the Reporting Data Warehouse interface within its Oracle financial system database to extract all project codes worked on by McKinsey's CSPs. This file represents all projects where a McKinsey professional charged time, regardless of location.
- The Working Group also used the Reporting Data Warehouse interface to extract all project codes assigned to McKinsey's office locations belonging to each of the Proposed Professionals.

The Working Group combined both sets of data files resulting in a total population of 46,491 project codes and 15,127²⁹ clients for comparison against the Expanded IPL based on the Valaris IPL.

b. Vendor Relationships

The Working Group obtained McKinsey's vendor relationship information during the Look-Back Period for comparison to the Expanded IPL based on the Valaris IPL. The Working Group utilized the Alteryx Designer platform to extract McKinsey vendor data from its Oracle database. The extracted data included details such as vendor name, payment date, invoice type, and legal entity making the payment. The Working Group identified 96,819 vendors for comparison against the Expanded IPL.

c. Banking Relationships

The Working Group obtained McKinsey's banking relationship information during the Look-Back Period for comparison to the Expanded IPL. The Working Group collected

²⁸ While the Services Contract is with McKinsey RTS and only the entities that employ the Engagement Team are providing services to the Debtors, McKinsey has chosen to file the Krivin Declarations disclosing connections for all McKinsey & Co. consulting affiliates.

²⁹ Based on the McKinsey client list generated from May 1, 2017 to August 31, 2020.

the banking relationship data as follows:

- First, The Working Group extracted all bank accounts (both open and closed) by exporting the Kyriba data directly into Microsoft Excel, which yielded 958 bank accounts. For each bank account, the extracted data included details such as the legal entity controlling the account and the financial institution managing the account.
- Second, since a single bank could involve multiple accounts with similar names, The Working Group manually searched the listing to identify unique bank names, which resulted in 54 banking relationship Connections to the Expanded IPL.

BDO Review & Testing:

BDO discussed The Working Group's process with McKinsey's Finance Department personnel with first-hand knowledge of client and vendor reporting data and the systems used firm-wide to store client and vendor information. BDO also reviewed the queries used by The Working Group to extract the client and vendor data during the Look-Back Period. Based upon our review and testing, the queries used accurately identify the relevant client and vendor data to check for Connections.

BDO also discussed banking relationship data and the systems used by The Working Group to store banking relationship information with McKinsey's Treasury Department personnel. BDO reviewed the queries used by The Working Group to extract the banking data during the Look-Back Period. Based upon our review and testing, the queries used accurately identify the relevant banking data to check for Connections.

3. Compare Expanded IPL Based on the Valaris IPL to Third Parties with Connections to the Proposed Professionals

The Working Group Procedures:

The Working Group used the client, vendor and banking relationship lists to

perform the following procedures:

a. Client and Vendor Relationships:

- The Working Group utilized the S&P Capital IQ formula function in Excel to identify S&P Capital IQ identification numbers (“Cap IQ IDs”) for entities on the client and vendor relationships lists. In instances where the S&P Capital IQ formula function resulted in multiple matches, the Working Group, out of an abundance of caution, included all results for comparison to the Expanded IPL. For evaluating client relationships, The Working Group also conducted manual reviews for entities for which no Cap IQ IDs were found through the S&P Capital IQ formula.
- For entities where Cap IQ IDs were identified, the Working Group used the Alteryx Designer software platform to identify matches to the Expanded IPL using the Cap IQ ID as a unique identifier.
- For entities for which no Cap IQ IDs were identified, the Working Group performed the following: (1) for evaluating client relationships, manually reviewed these items, using keyword searches and publicly available research and (2) for evaluating vendor relationships, used the Alteryx Designer software platform to perform searches between vendor names and the Expanded IPL (using Alteryx’s fuzzy match tool) as well as manually reviewed any identified results³⁰ in this process.

b. Banking List:

- The Working Group compared the Expanded IPL to the banking relationship list using various keyword searches to expedite the comparison to this Expanded IPL. However, the actual comparison process between the names on the Expanded IPL and the banking relationship list was primarily a manual process.
- The manual comparison process performed by The Working Group included researching publicly available information to determine whether a potential match was the same as the entity on the Expanded IPL. There were instances where The Working Group was unable to determine whether a potential match was the same party noted on this Expanded IPL. In those instances, The Working Group included the party as a match.
- The Working Group combined all client names and related project codes, vendor names for confirmed matches and banking names, resulting in client

³⁰ The Alteryx fuzzy matching tool was used to compare the vendor name (in the list of vendor relationships without Cap IQ IDs) and the Interested Party name (in the Expanded IPL), by searching text strings, assigning a similarity score for each potential match. All potential matches with a similarity score over 60 were included in the Alteryx results. The Working Group manually reviewed each result in this process using keyword searches and publicly available research.

connections for 763 Interested Parties, vendor Connections for 401 Interested Parties, and banking Connections for 96 Interested Parties on the Valaris IPL.

BDO Review & Testing:

BDO reviewed The Working Group's comparison of Expanded IPL based on the Valaris IPL to the lists of vendor, client, and banking relationships, and tested a sample of searches where Connections were either identified or not identified, without exception.

4. Surveys Distributed

The Working Group Procedures:

The Working Group prepared and distributed three separate surveys to groups of its professionals to collect information on potential Connections to Valaris as part of the process to compare its Connections to the Expanded IPL based on the Valaris IPL, as follows:³¹

- Firm-Wide CSP
- DCS Survey
- Engagement CSP Survey

a. Firm-Wide CSP Survey

McKinsey's Human Resources ("HR") Department extracted the distribution list of all CSPs globally by querying its HR system for professionals listed as having a CSP type role. Rather than limit the distribution of the CSP survey to subsidiaries or affiliates controlled by the Proposed Professionals as suggested in the Protocol, The Working Group elected to survey all firm CSPs. As such, The Working Group sent email

³¹ For purposes of the BDO Report, BDO requested that The Working Group provide the content of the survey template, including references to the mandatory fields and instructions. BDO reviewed the on-line survey to confirm they matched.

surveys to all 18,771³² CSPs located globally. CSPs were required to respond to the survey if they had any such Connections to report. If the survey recipients identified Connection(s), the survey instructed the recipient to describe the nature of such connection(s).

The CPSs were asked to disclose the following:

- Debt, equity securities, or other claims against Valaris (other than third-party managed investments) at any time after 90 days prior to the Petition Date, and
- Any Connections to Bankruptcy Judges, the U.S. Trustee or any person employed by the Office of the U.S. Trustee for the Southern District of Texas.³³

The Working Group reviewed the responses to determine whether the response identified a Connection and appropriately disclosed the Connection(s). The Firm-Wide CSP survey template is attached to the BDO Report as **Exhibit B**.

b. DCS Survey

The Working Group sent e-mail surveys to 1,707 DCSs to confirm whether the project(s) associated with the client matches, to the best of the DCSs' knowledge, were in any way related to Valaris. The surveys included a list of relevant engagement projects, as well as the list of Valaris and its debtor affiliates for their review. If the DCS answered "yes" to any one of the questions on the survey, the respondent was asked to describe how the services were related to Valaris.³⁴

³² Firm-wide CSPs as of August 31, 2020.

³³ The Protocol, Section 7.c., page 13, recommends that a Proposed Professional obtain knowledge of whether Connections exist by distributing questionnaires to Proposed Professional's professional personnel and Unretained Affiliates controlled by the Proposed Professional inquiring of their (i) known equity or debt investments in the debtor (e.g., excluding Third-Party Managed Investments); and (ii) other connections or relationships with the debtor (other than the Proposed Professional's proposed engagement), the Bankruptcy Court judges, or United States Trustee personnel.

³⁴ 1 of the respondents surveyed reported a potential client connection to the Valaris Engagement. The Working Group reviewed the response and determined that the potential connection was not a true Connection and the relationship involved matters unrelated to the Debtors.

The Working Group developed a process to track survey responses and, where necessary, to obtain additional information on client relationships.³⁵ The DCS survey template is attached to the BDO Report as Exhibit C.

c. Engagement CSP Survey

The Working Group distributed the Valaris IPL and e-mail surveys to the 18 client-facing Proposed Professional Personnel previously identified. The survey recipients were asked to identify:

- Whether the CSP has any personal Connections with any parties on the Valaris IPL (other than Connections through their work at the Proposed Professionals),
- Whether the CSP was aware of any person or entity not included on the Valaris IPL³⁶ that they think should have been included because it is an interested party in Valaris' bankruptcy (for example, because it is or was a creditor of, or has or had some other business Connection to Valaris, Valaris' assets or the work being performed by McKinsey's engagement team working on the Valaris bankruptcy), and
- Whether the CSP was related to or had a relationship with any of the MIO Partners, Inc.'s ("MIO") directors (listed in the body of the email) in their capacities as MIO board members.

The Working Group received responses from all currently employed survey recipients. If the survey recipient identified a Connection or Connections, the survey instructed the recipient to describe the name of each Connection(s). The Working Group reviewed the survey responses to determine whether the response identified a Connection and appropriately disclosed the Connection(s). The Engagement CSP survey template is attached to the BDO Report as Exhibit D.

³⁵ BDO asked The Working Group to provide the content of the survey template, including the references to the mandatory fields and instructions, to include as an Exhibit to its report.

³⁶ The Working Group provided the Valaris IPL as an attachment to the survey and to the email communication.

BDO Review & Testing:

BDO reviewed the survey templates³⁷ and the survey distribution lists that were sent to the list of Firm-Wide CSPs,³⁸ the DCS Surveys and the Engagement CSP Surveys. BDO also sampled responses to these surveys to ascertain whether The Working Group conducted a reasonable process to review identified Connections arising from the surveys. Based on BDO's review of the procedures performed by The Working Group, the procedures were reasonable and adequate in identifying the Proposed Professionals' Personnel's Connections.

C. Identify Indirect Connections Arising from Asset Management Affiliates**The Working Group Procedures:**

Based on the general guidelines and recommendations included in the Protocol, the Proposed Professionals determined that their affiliate, MIO, is a Type 2 AMA.³⁹ As such, as set forth in the Protocol for a Type 2 AMA, The Working Group provided the complete Valaris IPL to MIO and requested that it identify and report Connections to

³⁷ BDO asked The Working Group to provide the content of the survey templates, including references to the instructions and mandatory fields, to include as Exhibits to the BDO Report. BDO also reviewed the online survey to confirm the surveys matched.

³⁸ The Protocol Section 7.b., page 13, recommends that the Proposed Professional distribute the IPL to its Proposed Professional Personnel and request them to report any Connections (other than *de minimis* connections) to the Proposed Professional.

³⁹ According to the Protocol defined terms, pages 3-5, an AMA is an affiliate or division of a Proposed Professional that is actively engaged in managing or owning financial investments. A Type 2 AMA means an AMA that:

- (i) (a) employs Information Barriers, (b) is subject to both Securities Registration and Regulatory Oversight, and (c) obtains most or all of its assets under management from third parties (i.e., parties other than Related Investors [current and formed ultimate beneficial owners, employees and their immediate family members]);
- (ii) obtains most or all of its assets under management from Related Investors and not from third parties,
- (iii) does not make direct investments in Named Issuers but only, if at all, holds investments in Named Issuers as Third-Party Managed Investments; and
- (iv) does not have Independent Personnel and Management.

the Valaris IPL Parties.⁴⁰

In addition, although not required by the Protocol, The Working Group also provided the Expanded IPL to MIO for MIO's search for Connections to Valaris IPs.

The Working Group identified and disclosed indirect Connections to 92 Valaris IPs through the review of a report received from its AMA. A copy of the report issued by MIO to the Proposed Professionals to report Connections to the Expanded IPL is attached to the Proposed Professionals' October 1, 2020 Supplemental Krivin Declaration as Schedule 3.⁴¹

BDO Review & Testing:

Based on its understanding that MIO is a Type 2 AMA, the Proposed Professionals' procedures were reasonable and adequate in identifying and disclosing Connections arising from AMAs.

D. Disclosure of Revenues in Excess of 1% for McKinsey's Clients

The Working Group Procedures:

McKinsey's Finance Department generated a revenue report by client for each Proposed Professional during the Revenue Period. The Proposed Professionals

⁴⁰ The Protocol Section 7.b., page 12, recommends the Proposed Professional distribute the IPL to its Type 2 AMAs, request them to report any Connections (other than *de minimis* connections) to the Proposed Professional, and disclose in its retention application all Connections so reported. In addition, Protocol Section 5.c., page 11, provides that "Disclosure of known Immediate Indirect Connections (other than *de minimis* connections) of a Type 2 AMA will consist of identifying the IPL Parties, if any, to which the Type 2 AMA has immediate Indirect Connections, if and as reported by the Type 2 AMA to its related Proposed Professional. A Proposed Professional with a Type 2 AMA should provide the IPL to its Type 2 AMA, and request its Type 2 AMA to inform it of known Immediate Indirect Connections (other than *de minimis* connections) to IPL Parties for potential disclosure in the Proposed Professional's retention application pursuant to this Protocol..."

⁴¹ The Protocol Section 7.d., page 13, provides that "A Proposed Professional should set forth in its retention application the results reported to the Proposed Professional from its AMA's (if applicable) search with respect to IPL Parties (including any alternative processes or rationale for omission thereof)."

identified, and disclosed in the Krivin Declarations, clients with Connections to the expanded IPL that contributed more than 1.0% of revenues for each McKinsey entity. In conjunction with the results of the surveys sent to CSPs, The Working Group determined that none of the services performed for these clients were related to the Valaris Engagement.

BDO Review & Testing:

BDO reformed the test of clients generating more than 1.0% of revenues for each McKinsey entity and determined that the Proposed Professionals properly disclosed these clients in the Supplemental Krivin Declaration dated October 1, 2020.

THE REST OF THIS PAGE IS INTENTIONALLY LEFT BLANK

V. BDO ASSESSMENT OF THE KRIVIN DECLARATIONS

Based on the procedures performed by The Working Group and reviewed and tested by BDO as described in the BDO Report, the procedures performed by the Working Group on behalf of the Proposed Professionals to identify connections as disclosed in the Krivin Declarations to the Court in these Chapter 11 Cases were reasonable, adequate and consistent with the general guidelines and recommendations in the Protocol.

In addition, The Working Group elected to perform additional procedures not recommended in the Protocol.

BDO reviewed the Krivin Declarations and verified that the Connections for Valaris IPs identified by The Working Group process and procedures were disclosed.

Exhibit A

Baker Disclosure Protocol

HOUSTON DISCLOSURE PROTOCOL

Summary

The following Houston Disclosure Protocol addresses the complex legal and business issues surrounding the disclosure obligations arising from a Proposed Professional's retention under Section 327¹ in bankruptcy cases involving more than \$50 million in claims. The Protocol addresses Proposed Professionals of varying types, including law, accounting, financial advisory, and investment banking firms, that seek compensation from a bankrupt estate. A Schedule of Defined Terms immediately follows this Summary, and capitalized terms used in this Summary and in the Protocol have the meanings ascribed to them there. This Summary outlines the Protocol's disclosure recommendations and the means or process to satisfy them.

The Protocol focuses on a Proposed Professional's disclosure regarding Connections to parties that could affect the Proposed Professional's "disinterestedness" and contemplates that the debtor will create and maintain an Interested Party List to facilitate identification of Connections (Exhibit "A" to the Protocol addresses the IPL). The Protocol recommends that a Proposed Professional obtain the data to support disclosure of Connections by procedures that include, as applicable, a computerized search of client databases, distribution of a questionnaire (a proposed form of which is provided in Exhibit "B" to the Protocol), and inquiry of the Proposed Professional's AMAs (if any), as discussed below. While recognizing that a Proposed Professional bears the burden of adequate disclosure in its retention application and an Estate Professional bears that burden in all appropriate supplemental disclosures, the Protocol provides that disclosure of Connections should be based on a Proposed Professional's actual knowledge of them, including from the results of a computer search and questionnaire process, as applicable.

The Protocol distinguishes Connections arising from the different kinds of the Proposed Professional's affiliates, including: (a) Retained Affiliates, which the Protocol classifies as generating Direct Connections of the Proposed Professional, and (b) Unretained Affiliates (including AMAs), which the Protocol classifies as generating Indirect Connections. As set forth in the Protocol, the disclosure of known Connections and the process to obtain knowledge of them should vary in accordance with the characteristics of each Proposed Professional and its AMAs and other Unretained Affiliates.

The Protocol classifies AMAs into 4 Types and recommends a process to obtain and disclose information regarding Connections that varies based on the extent to which the AMA: (i) is subject to Securities Registration, Regulatory Oversight, and/or Independent Personnel and Management; (ii) refrains from investing directly in Named Issuers; and (iii) accepts investment funds from third parties rather than Related Investors. The Protocol recommends that: (a) Proposed Professionals that qualify as Type 1 Financial Organizations or have Type 1 AMAs disclose only Direct Connections known to the Proposed Professional without review of the IPL by an AMA; (b) Proposed Professionals with Type 2, 3 or 4 AMAs should also disclose Direct Connections known to the Proposed Professional; (c) Proposed Professionals with Type 2 AMAs should also disclose the names of IPL Parties with Indirect Connections known to the Type 2 AMA as reported by the Type 2 AMA to the Proposed Professional; (d) Proposed Professionals

¹ This Protocol does not address retention applications filed by claims and noticing agents under 28 U.S.C. § 156.

with Types 3 and /or 4 AMAs should disclose Indirect Connections known to the AMA(s) and reported to the Proposed Professional, including direct investments in Named Issuers that are IPL Parties, and (e) Proposed Professionals with Type 4 AMAs should make such additional disclosures, if any, as may be appropriate in the circumstances.

The Protocol recognizes that disclosure of Connections may vary in response to, *inter alia*, the size of the bankruptcy case and should exclude *de minimis* matters. The *de minimis* concept is applicable to both the IPL and the disclosure of Connections in a Proposed Professional's retention application. *De minimis* exclusions can be based, for example, on the small value of a claim, the small ownership percentage and value of an equity interest, or other, similar considerations. An IPL, and a Proposed Professional's disclosure of Connections in its retention application, should state the criteria applied in making *de minimis* exclusions.

DEFINED TERMS

AMA means an affiliate or division of a Proposed Professional that is actively engaged in managing or owning financial investments. For clarity, AMA does not refer either to assets that might be held through investment vehicles or to such investment vehicles, e.g., mutual funds, but does refer to the entity managing such investment vehicles, i.e., a mutual fund manager.

CFTC means the Commodities Futures Trading Commission.

Connection means, in the context of Section 327 and Rule 2014, an association or relationship with an IPL Party that a reasonable person might find bears on whether the Proposed Professional “holds or represents an interest adverse to the estate” and is “disinterested” under Section 327 and Section 101(14), based on the facts of a particular bankruptcy case.

De minimis means a matter too distant in time, remote in probability, or insignificant to warrant consideration in the context of a particular bankruptcy case.

Direct Connection means a known Connection between a Proposed Professional and an IPL Party (other than an Indirect Connection).

Estate Professional means a Proposed Professional whose retention has been approved by the Bankruptcy Court.

FINRA means the Financial Industry Regulatory Authority.

Immediate Indirect Connection means a known Connection between an IPL Party and a Proposed Professional’s Unretained Affiliate (including an AMA).

Independent Personnel and Management means, with respect to an AMA of a Proposed Professional, the employment or engagement of management, professional and other personnel separate from those of such Proposed Professional, (e.g., excluding the Proposed Professional’s active employees from the AMA’s management, so that only independent directors/managers or professionals that are not active employees of (or that have retired from) the related Proposed Professional serve on the AMA’s board of directors (or other equivalent governing body)).

Indirect Connection means an Immediate Indirect Connection or a Remote Indirect Connection.

Information Barriers means policies and procedures of a referenced entity (including but not limited to policies and procedures adopted in compliance with Rule 10b5-1) that seek reasonably to ensure that (a) such entity’s investment decisions not violate the laws prohibiting trading on the basis of MNPI, and (b) Proposed Professional Personnel have no participation in or knowledge concerning investment decisions made by the Proposed Professional or its affiliates.

Interested Party List or **IPL** means a list of parties with Connections to the debtor’s estate (other than *de minimis* connections).

IPL Parties means the persons or parties listed on an IPL.

MNPI means material non-public information.

Named Issuers means an issuer of debt or equity securities (including a municipality), including parties that could become a debtor in a bankruptcy case.

NFA means the National Futures Association.

Other Regulatory Oversight means examination by any federal, state or foreign regulatory authority regarding compliance with regulatory requirements, other than Regulatory Oversight.

Proposed Professional means a professional person or entity proposed to be retained in connection with a pending bankruptcy case under Section 327. As used in this Protocol, the term “Proposed Professional” includes Retained Affiliates.

Proposed Professional Personnel means the primary working group within a Proposed Professional entity that directly provides the services for which the Proposed Professional is retained in the particular bankruptcy case, and excludes personnel that only episodically provide such services.

Regulatory Oversight means periodic regulatory examinations by the SEC, FINRA, or the NFA.

Related Investors means, with respect to a Proposed Professional, the Proposed Professional’s current and former ultimate beneficial owners, employees and their immediate family members.

Remote Indirect Connection means a known Connection arising from a relationship between a Proposed Professional’s Unretained Affiliate (including an AMA) and a third party, which third party, in turn, has a Connection with an IPL Party.

Retained Affiliates means those affiliates of a Proposed Professional that employ professional personnel for whom the Proposed Professional will seek compensation pursuant to Section 330 of the Bankruptcy Code.

Rule 10b5-1 means 17 C.F.R. 240.10b-5.

Rule 2014 means Federal Rule of Bankruptcy Procedure 2014.

SEC means the United States Securities and Exchange Commission.

Section 101(14) means 11 U.S.C. § 101(14).

Section 327 means 11 U.S.C. § 327.

Securities Registration means, with respect to a referenced entity, such entity’s registration (and attendant regulation) as an investment advisor by the SEC, as a securities broker/dealer by FINRA, or under the requirements of the CFTC.

Survey means the Summary of Industry Affiliate Investment Disclosures. *In re: Westmoreland Coal Co.*, Case No. 18-35672 (Bankr. S.D. Tex.), ECF No. 1659-1 pp. 2-66.

Third-Party Managed Investments means investments (including through mutual funds and other investment vehicles) that are managed by third parties with delegated investment authority and discretion.

Type means one of the four (4) types of AMAs that are classified in this Protocol.

Type 1 AMA means an AMA that either:

- A. (i) employs Information Barriers, (ii) is subject to both Securities Registration and Regulatory Oversight, and (iii) obtains most or all of its assets under management from third parties (i.e., parties other than Related Investors); or
- B. qualifies under the criteria provided in subsections (A)(i) and (ii), above, but obtains most or all of its assets under management from Related Investors and not from third parties, and also insulates its personnel and management by means of Independent Personnel and Management.

Type 2 AMA means an AMA that: (i) qualifies under the criteria provided in subsections (A)(i) and (ii) in the definition of Type 1 AMA, above; (ii) obtains most or all of its assets under management from Related Investors and not from third parties; (iii) does not make direct investments in Named Issuers but only, if at all, holds investments in Named Issuers as Third-Party Managed Investments; and (iv) does not have Independent Personnel and Management.

Type 3 AMA means an AMA that: (i) employs Information Barriers; (ii) is subject to either: (A) Regulatory Oversight, or (B) Other Regulatory Oversight; (iii) obtains its assets under management from Related Investors or third parties; and (iv) may make direct investments in the debt or equity of Named Issuers, whether or not it also holds such investments as a result of Third-Party Managed Investments.

Type 4 AMA means an AMA not qualifying as a Type 1, Type 2 or Type 3 AMA.

Type 1 Financial Organization means a Proposed Professional, including an investment banking or similar institution (including a financial advisor affiliated with an investment bank), that has Information Barriers and other characteristics of and would therefore qualify as a Type 1 AMA. A Type 1 Financial Organization retains its classification as such even if it does not have assets under management. A Type 1 Financial Organization also retains its classification as such notwithstanding that it may include affiliates of other Types (e.g., Type 3 AMAs engaged in insurance activities, and Type 4 AMAs acting in various capacities in ownership and/or management of investment assets).

Unretained Affiliate means an affiliate of a Proposed Professional other than a Retained Affiliate.

Introduction

Rule 2014 requires disclosure of connections between a Proposed Professional and certain parties in interest in bankruptcy cases. None of Rule 2014, Section 327, or the decisional law construing any of them provides Proposed Professionals (and Estate Professionals) and in particular, those having an AMA, any clear guidance regarding adequate disclosure of their AMA's connections with parties in interest in a bankruptcy case. This Protocol: (a) suggests definitions for a Connection requiring disclosure and categorizes such Connections; (b) classifies AMAs within four Types; (c) differentiates the disclosure of Connections recommended for the four Types of AMAs; (d) discusses knowledge of Connections and the means to obtain it; and (e) addresses confidentiality concerns and requirements for updating disclosure of Connections.

This Protocol does not endeavor to and could not effectively provide definitive guidance to all Proposed Professionals in all circumstances. Proposed Professionals range from sole practitioners or single office practices to complex international firms with thousands of professionals and multiple AMAs of various Types. Proposed Professionals may similarly be subject to a wide range of regulation, including self-regulatory rules and standards governing legal and accounting professionals, and Securities Registration and/or Regulatory Oversight to which financial advisory and investment banking firms may be subject. Proposed Professionals also are subject to a broad range of consequences for violation of the respective rules, regulations and laws that govern them, including license suspension or loss, enforcement under Securities Registration and/or Regulatory Oversight, and potential civil and criminal liabilities for misuse of MNPI. This Protocol therefore provides general guidance regarding how Proposed Professionals may obtain information and make proper disclosures to support their retention in U.S. bankruptcy cases that are within the scope of this Protocol, but this Protocol does not provide specific guidance for all Proposed Professionals, regardless of their type, size and structure, or in all bankruptcy cases, regardless of their size, scope, or operative facts. This Protocol recognizes that a Proposed Professional may deviate from its suggested data gathering procedures and disclosure recommendations based upon its particular facts and circumstances. No such deviation, *per se*, however, should support a contention that a Proposed Professional is not disinterested or that its retention should not be approved.

A Proposed Professional bears the burden of making appropriate disclosure of Connections in its initial retention application and an Estate Professional bears a continuing burden to supplement that disclosure as appropriate in the circumstances. This Protocol proposes a framework for disclosure of Connections by Proposed Professionals, Estate Professionals, and their affiliates in bankruptcy cases involving more than \$50 million in liabilities.

Connection should be broadly defined to respect the term's ordinary meaning and accomplish the important purposes of Rule 2014 and Section 327 to ensure that a Proposed Professional is a "disinterested person" as defined in Section 101(14). Section 327's primary functions include: (a) allowing the estate to obtain and retain expertise to fulfill its essential functions; (b) requiring disclosure of matters that might affect Estate Professionals' performance of their duty of loyalty; and (c) maintaining the integrity of the bankruptcy process and promoting the parties' and the public's confidence in that integrity. Section 327 requires that Proposed Professionals "not hold or represent an interest adverse to the estate" and are "disinterested persons." Section 101(14)(c) requires that a disinterested person "not have an

interest materially adverse to the interest of the estate or of any class of creditors or equity security holders, by reason of any direct or indirect relationship to, connection with, or interest in the debtor, or for any other reason.” Rule 2014 disclosure is intended to provide the Bankruptcy Court and parties in interest in a bankruptcy case with information adequate to evaluate whether a Proposed Professional is a disinterested person and qualified to serve under Section 327.

The definition of Connection and Rule 2014’s related disclosure obligations should not impair an effective evaluation of disinterestedness by requiring disclosure of every possible connection, no matter how *de minimis*. Further, Rule 2014 disclosure should not impractically require disclosure of unknown information or ignore valid confidentiality concerns.

The formulation of this Protocol has been informed by the Survey. The Survey reflects that, in the absence of any definition of Connection and disclosure guidelines, Proposed Professionals have adopted widely disparate practices governing disclosure of Connections, even among similarly situated Proposed Professionals. This Protocol was further informed by the results of telephonic interviews conducted with representatives of more than a dozen separate professional firms with significant Chapter 11 experience, who expressed their willingness to discuss (for themselves and not as an expression of their firm’s policies or procedures), in a candid, off-the-record context and not for attribution in the Protocol, disclosure issues arising from the retention application process. This Protocol provides guidance to Proposed Professionals regarding such disclosures.

1. Description of Connections

a. **Requirement of Disclosure.** Rule 2014 requires disclosure of the Connections of the “person to be employed,” and Section 101(14) refers to “direct or indirect relationships,” but neither Rule 2014 nor related decisional law addresses whether Indirect Connections (i.e., Connections created by affiliates of a Proposed Professional) must be disclosed.

b. **Interested Parties and Interested Party List.** In order to facilitate a Proposed Professional’s disclosure of Connections, the debtor, in consultation with its outside restructuring counsel, should prepare and make an Interested Party List (or IPL) available to all Proposed Professionals. If a Proposed Professional believes that the then-current IPL should be amended, such Proposed Professional should so advise the debtor’s counsel. If no IPL has been prepared when a Proposed Professional files its retention application, the retention application should disclose that fact and explain how the Proposed Professional identified Connections. Exhibit “A” to this Protocol includes an IPL template, as well as guidelines for a debtor’s consideration in preparing an IPL in light of the particular facts and circumstances of a bankruptcy case.

c. **Retained Affiliates.** A Proposed Professional should: (i) seek retention (and include the identity) of Retained Affiliates in its retention application; and (ii) ensure that its retention application discloses all known Connections (other than *de minimis* connections) among IPL Parties and such Retained Affiliates.

d. **Protocol Organization.** Paragraph 2 provides for certain disclosures relating to Immediate Indirect Connections. Paragraph 6 addresses what constitutes knowledge in connection with preparing retention application disclosures. Paragraph 8 discusses confidential treatment for Connections and IPL Parties in certain circumstances.

e. **De Minimis Exclusions.** Effective disclosure in large bankruptcy cases requires reasonable exclusion of *de minimis* connections and parties that should not qualify as IPL Parties (e.g., small creditor, vendor, customer exclusions, and investments falling below a threshold), as described on Exhibit “A.” Section 101(14)(c)’s reference to “material” supports excluding *de minimis* connections. For instance, a Proposed Professional may determine that an equity investment in an IPL Party of less than 1% of the outstanding equity or debt (with a value the Proposed Professional determines to be *de minimis*) need not be disclosed. Each IPL and each Proposed Professional’s retention application that excludes *de minimis* parties or connections should state the criteria, based on the facts and circumstances of the case (commonly, a dollar and/or percentage amount) applied to make such exclusions from disclosure.

f. **Disclosure under this Protocol.** Subject to *de minimis* exclusions as set forth herein, this Protocol recommends:

(i) A Proposed Professional (including Retained Affiliates) should disclose all known Direct Connections, and also disclose all Indirect Connections known to its Unretained Affiliates (including AMAs) and reported to it. Except as otherwise provided in this Protocol (including in Paragraph 8 regarding confidentiality), disclosed Connections should be identified by name and adequately described.

(ii) A Proposed Professional should obtain knowledge of Connections through its new matter intake process, by computer database searches, questionnaires and otherwise as described in this Protocol.

(iii) A Proposed Professional should disclose whether it has any AMAs, and if it does, it should describe such AMAs’ classification by Type as provided for in this Protocol, including (as applicable) such AMAs’: (A) Information Barriers; (B) Related Investors; (C) practices regarding direct investments in Named Issuers and/or through Third-Party Managed Investments; (D) Independent Personnel and Management; and (E) Regulatory Oversight and/or Other Regulatory Oversight.

(iv) A Proposed Professional that does not qualify as a Type 1 Financial Organization or have a Type 1 AMA, and does have one or more Type 2, 3 and/or 4 AMAs, should provide the IPL to such Type 2, 3 and/or 4 AMAs and request the AMAs to report Indirect Connections to the Proposed Professional as provided in this Protocol (including enhanced disclosure for Type 3 and 4 AMAs).

2. **Indirect Connections**

a. **Requirement of Disclosure.** Immediate Indirect Connections should be disclosed, as bearing upon whether the Proposed Professional “holds or represents an interest adverse to the debtor,” including Immediate Indirect Connections of: (i) Unretained Affiliates (as disclosed pursuant to an applicable questionnaire process), and (ii) Type 2, 3 and 4 AMAs (as disclosed in response to the distribution of the IPL), all as discussed below.

b. **Remote Indirect Connection.** The Survey reflects that Remote Indirect Connections are not generally disclosed, likely because Proposed Professionals have no knowledge of them. This Protocol recommends disclosure of a Remote Indirect Connection (other than a *de minimis* connection) only if the Proposed Professional has knowledge thereof. A

Proposed Professional's retention application should disclose the potential existence of unknown Remote Indirect Connections with IPL Parties. A Proposed Professional is not required to conduct procedures other than those set forth in this Protocol to identify Remote Indirect Connections.

3. Indirect Connections through Asset Management Affiliates

a. **AMA Disclosure.** When a Proposed Professional (including, without limitation, a law, accounting, financial advisory or investment banking firm) has an Unretained Affiliate that is an AMA, additional disclosure may be required to explain the AMA's Connections and their impact, if any, on the Proposed Professional's disinterestedness. That additional disclosure should also describe whether the AMA accepts funds from third parties or Related Investors, and whether the AMA makes direct investments in the debt or equity securities (i.e., buys or sells short, long, option or other positions) of Named Issuers or holds investments in Named Issuers through Third-Party Managed Investments, or both. Based on the Survey, many Proposed Professionals do not identify such AMAs individually by name, but rather identify them descriptively and generically. This Protocol does not intend to change that practice. The description of such AMAs should categorize them by reference to the applicable "Types" described below. Most Proposed Professionals (in common with most employers) maintain 401(k) programs and support various other pension and/or other retirement account programs for their employees' benefit as Third-Party Managed Investments and without using an AMA; such arrangements do not trigger any requirement for analysis as an AMA under this Protocol.

b. **Material Non-Public Information; Regulation and Oversight.** Proposed Professionals, Estate Professionals and their respective AMAs frequently possess MNPI and often implement Information Barriers to address this. These entities may also be subject to regulation and oversight, including Securities Registration and/or Regulatory Oversight.

c. **AMA Classification.** This Protocol identifies four Types of AMAs (Types 1, 2, 3 and 4) and proposes corresponding disclosure requirements for each Type. If a Proposed Professional believes its AMA has characteristics of more than one Type, its retention application should discuss these characteristics and include disclosure applicable to the higher numbered Type (e.g., an AMA with characteristics of both a Type 3 and Type 4 AMA should make the disclosure required for a Type 4 AMA). If a Proposed Professional believes its AMA should be classified differently from these Types, its retention application should discuss this and include disclosure most appropriate to such AMA.

d. **Change in AMA Type.** An AMA's classification can change over time. For example: a Type 4 can qualify as a Type 3 by implementing Information Barriers and becoming subject to Regulatory Oversight or Other Regulatory Oversight; a Type 3 can qualify as a Type 2 by becoming subject to Securities Registration (and, if applicable, Regulatory Oversight rather than Other Regulatory Oversight) and holding investments in Named Issuers only as Third-Party Managed Investments; and a Type 2 can become a Type 1 by implementing Independent Personnel and Management. With respect to each bankruptcy case in which a Proposed Professional files a retention application, however, the Proposed Professional should classify its AMA(s) (as a Type 1, 2, 3 or 4) based on the AMA's characteristics when the Proposed Professional files its initial retention application in such case, and this classification should remain in effect throughout the course of such case (i.e., the same classification should apply to

an Estate Professional's updated retention application disclosures). Accordingly, the same AMA of a Proposed Professional may be classified differently in different bankruptcy cases, based on its characteristics at the time that the Proposed Professional files its initial retention application in the different bankruptcy cases.

4. Disclosures Relating to Type 1 Financial Organizations and Type 1 AMAs

a. **Present Type 1 Financial Organization and Type 1 AMA Disclosure.** The Survey indicates that a retention application for a Proposed Professional qualifying as a Type 1 Financial Organization or having an AMA that this Protocol categorizes as a Type 1 AMA commonly discloses only Direct Connections known to the Proposed Professional Personnel because its Information Barriers, Securities Registration and Regulatory Oversight fully protect MNPI, and insulate the Proposed Professional Personnel from any effects that MNPI could potentially create with respect to the Proposed Professional's disinterestedness. Such Proposed Professional Personnel generally have no knowledge of (and therefore the Proposed Professional does not disclose) debt or equity investments in IPL Parties because of the effectiveness of the Information Barriers applicable to communication and misuse of MNPI and insulating Proposed Professional Personnel from participation in or knowledge of investment decisions.

b. **Proposed Type 1 Financial Organization and Type I AMA Disclosure.** This Protocol proposes that the disclosures of Connections in a retention application of a Proposed Professional qualifying as a Type 1 Financial Organization or having a Type 1 AMA may properly be limited to identifying the names (subject to confidentiality considerations) of Direct Connections (other than *de minimis* connections) known to such Proposed Professional in reliance on the presumed effectiveness of Information Barriers. Such named entities should ordinarily be described as "a current or former client, but with respect to matters unrelated to the Debtor," absent facts or circumstances that require enhanced disclosure. Bankruptcy Courts have consistently approved retention applications based upon such disclosures.

5. Disclosures relating to Type 2, 3 and 4 AMAs

a. **Present Type 2, 3 and 4 AMA Disclosure.** The Survey indicates that retention applications for a Proposed Professional with an AMA that this Protocol categorizes as a Type 2, 3, or 4 AMA include increased disclosures because: (i) such a firm accepts most or all of its investments from Related Investors; (ii) a Type 3 AMA may be subject only to Other Regulatory Oversight (and may not be subject to any Securities Registration); (iii) a Type 4 AMA may not be subject to regulatory examinations or Securities Registration at all; and (iv) a Type 3 or 4 AMA may make direct investments in Named Issuers, rather than investing exclusively through Third-Party Managed Investments.

b. **Considerations for Type 2 AMA Disclosures.** A Proposed Professional with an AMA that this Protocol categorizes as a Type 2 AMA could credibly contend that its disclosure obligations in respect of its Type 2 AMA should be the same as the disclosure obligations in respect of Type 1 AMAs because its Type 2 AMA protects MNPI by means of the same Information Barriers enforced by the same Securities Registration and Regulatory Oversight as those that apply to Type 1 AMAs. In addition, a Type 2 AMA refrains from direct investments in Named Issuers, and a Type 1 AMA may make direct investments in Named Issuers. Nonetheless, this Protocol recommends increased disclosure by a Proposed Professional with a Type 2 AMA in order to advance the purposes of (i) protecting public confidence in the integrity

of the restructuring process, and (ii) ensuring an absence of self-dealing because a Type 2 AMA obtains most or all of its funds under management from Related Investors and may be managed and controlled by active professional personnel that also manage and control the related Proposed Professional (rather than utilizing Independent Personnel and Management).

c. **Proposed Type 2 AMA Disclosure.** A retention application for a Proposed Professional (other than a Type 1 Financial Organization) with a Type 2 AMA should disclose known (i) Direct Connections of the Proposed Professional, and (ii) Immediate Indirect Connections of its Type 2 AMA, in each case other than *de minimis* connections. Disclosure of known Immediate Indirect Connections (other than *de minimis* connections) of a Type 2 AMA will consist of identifying the IPL Parties, if any, to which the Type 2 AMA has Immediate Indirect Connections, if and as reported by the Type 2 AMA to its related Proposed Professional. A Proposed Professional with a Type 2 AMA should provide the IPL to its Type 2 AMA, and request its Type 2 AMA to inform it of known Immediate Indirect Connections (other than *de minimis* connections) to IPL Parties for potential disclosure in the Proposed Professional's retention application pursuant to this Protocol, including Paragraph 6, below, regarding knowledge.

d. **Proposed Type 3 AMA Disclosure.** A retention application for a Proposed Professional (other than a Type 1 Financial Organization) with a Type 3 AMA should contain enhanced disclosure that reflects (i) such AMA's Regulatory Oversight or Other Regulatory Oversight, as applicable; and (ii) the extent of any Securities Registration applicable to such AMA. Such retention application disclosure should also address how, if at all, these characteristics of its AMA could cause any potential impairment to the Proposed Professional's perceived or actual disinterestedness. Because Type 3 AMAs may make direct investments in Named Issuers, the disclosures required from such a Proposed Professional with a Type 3 AMA should disclose known Indirect Connections (other than *de minimis* connections) between the Type 3 AMA and IPL Parties including those arising from any such direct investments in Named Issuers that appear in the IPL, in each case as reported by the Type 3 AMA to its related Proposed Professional.

e. **Proposed Type 4 AMA Disclosure.** A retention application for a Proposed Professional (other than a Type 1 Financial Organization) with a Type 4 AMA should contain enhanced disclosure that sets forth the Securities Registration, Regulatory Oversight and/or Other Regulatory Oversight (or lack thereof) applicable to the Proposed Professional. Such retention application disclosure should also address how, if at all, these characteristics of its AMA could cause any potential impairment to the Proposed Professional's perceived or actual disinterestedness. If the applicable Type 4 AMA makes direct investments in Named Issuers, the disclosures required from such a Proposed Professional with such Type 4 AMA should disclose known Indirect Connections (other than *de minimis* connections) between the Type 4 AMA and IPL Parties, including those arising from any such direct investments in Named Issuers that appear in the IPL, in each case if and as reported by the Type 4 AMA to its related Proposed Professional. The disclosures required in a retention application of a Proposed Professional with a Type 4 AMA should be informed by the disclosure provided with respect to other categories of AMAs and supplemented as appropriate based on the facts and circumstances applicable to the particular AMA and bankruptcy case.

6. Disclosure Based on Actual Knowledge

The disclosure obligations of a Proposed Professional under this Protocol derive from the Proposed Professional's knowledge of Connections (other than *de minimis* connections), including the knowledge of Connections of a Proposed Professional's AMAs (if any) which the AMA may report to the Proposed Professional. In the case of Type 2, 3 and 4 AMAs with only Third-Party Managed Investments, disclosure of investments in Named Issuers included in the IPL Parties that such managers may make from time to time would be impractical because of, *inter alia*, the frequency of trading in such positions, and the AMA's limited knowledge thereof (if any). To be sure, Proposed Professionals cannot disclose unknown Connections, and this Protocol does not suggest that they do so. Instead, this Protocol provides procedures to obtain such knowledge. For purposes of this Protocol, a Proposed Professional's knowledge of Connections means actual knowledge derived from its new matter intake process and the results of the Proposed Professional's: (a) computer client database check (as described in Paragraph 7, below); (b) any applicable inquiry of its professional personnel (and Unretained Affiliates other than AMAs) by a questionnaire process or otherwise (also as described in Paragraph 7, below); (c) review of the report it receives of its AMA's (if applicable) check for conflicts and Connections (or any other applicable) process; and (d) review of any other process for its Unretained Affiliates (if any, and other than an AMA). All references to "knowledge" in this Protocol refer to actual knowledge. As discussed in Paragraph 7(e), below, if a Proposed Professional limits its retention application disclosure to the knowledge of Proposed Professional Personnel, that limitation should be disclosed in the retention application. A retention application of a Proposed Professional with knowledge of Direct Connections or Indirect Connections with IPL Parties (other than *de minimis* connections), should disclose all such Connections. In addition, if a Proposed Professional has knowledge of a Connection (other than a *de minimis* connection) with a person not included in the IPL, such Connection should be disclosed.

7. Determination of Whether a Connection Exists

Proposed Professionals should obtain knowledge of whether Connections exist generally by following the procedures discussed below, subject to adaptations to disclose particular circumstances affecting a particular Proposed Professional and bankruptcy case. Each retention application for a Proposed Professional should describe the process and procedures it utilized to obtain knowledge of Connections.

a. **Interested Party List.** Subject to Paragraph 6 of this Protocol regarding knowledge, Proposed Professionals can reasonably and in good faith rely on the list of IPL Parties, consistent with the description and template attached as Exhibit "A," prepared (and periodically updated, with information derived from the debtor's bankruptcy schedules and otherwise, as described in Exhibit "A" and in Paragraph 10, below) by the debtor.

b. **Process to Check for Conflicts and Connections.** Every Proposed Professional should perform (in connection with its other new matter intake procedures) a process to check such Proposed Professional's client databases for conflicts and Connections with IPL Parties. A Proposed Professional should utilize a process designed to identify Connections adequately in the context of the size and organizational complexity of the Proposed Professional. For entities

with a significant number of professionals, this process often utilizes computer software.¹ For Proposed Professionals with a large number of professionals, this Protocol recommends deployment of adequate software within a reasonable time. Pending such deployment, a Proposed Professional may retain an independent third party to assess the adequacy of the alternative procedures the Proposed Professional uses to identify and appropriately disclose Connections.

A Proposed Professional (other than a Type 1 Financial Organization or a Proposed Professional with Type 1 AMAs) should distribute the IPL to its Type 2, 3 and 4 AMAs, request them to report any Connections (other than *de minimis* connections) to the Proposed Professional, and disclose in its retention application all Connections so reported. In addition, a Proposed Professional should distribute the IPL to its Proposed Professional Personnel, request them to report any Connections (other than *de minimis* connections) to the Proposed Professional, and disclose in its retention application all Connections so reported.

c. **Questionnaires.** A Proposed Professional should disclose in its retention application the results from written inquiries of the Proposed Professional's professional personnel (as distinguished from staff, support or administrative personnel), and (to the extent, if any, appropriate) Unretained Affiliates (if any) controlled by the Proposed Professional regarding: (i) their known equity or debt investments in the debtor (e.g., excluding Third-Party Managed Investments); and (ii) other connections or relationships with the debtor (other than the Proposed Professional's proposed engagement), the Bankruptcy Court judges, or United States Trustee personnel. Exhibit "B" to this Protocol presents a sample questionnaire. Particularly for Proposed Professionals organized in complex global structures, Exhibit "B" may require substantial modification, or a different (or even no) approach to seeking this information from certain of its professional employees and affiliates may be appropriate.

d. **AMA's Report.** A Proposed Professional should set forth in its retention application the results reported to the Proposed Professional from its AMA's (if applicable) search with respect to IPL Parties (including any alternative processes or rationale for omission thereof).

e. **Type 1 Financial Organizations and Type 1 AMAs.** As discussed above, Type 1 Financial Organizations and Type 1 AMAs are subject to Information Barriers that not only protect against misuse of MNPI but also insulate Proposed Professional Personnel from participation in or knowledge concerning investment decisions. Accordingly, it may be appropriate for such Proposed Professionals to obtain knowledge of Connections from their new matter intake procedures and computer client database reviews and base their disclosures on the knowledge of their Proposed Professional Personnel derived therefrom, without using questionnaires (other than directed to its Proposed Professional Personnel) or other procedures.

8. Confidentiality Considerations

If a Connection (or the identity of an IPL Party) that should be disclosed under this Protocol is subject to confidentiality considerations and the Proposed Professional seeks not to disclose the Connection or the name of the IPL Party, the following steps should be taken:

¹ Law firms generally use proprietary software licensed from vendors, while financial advisory firms more typically develop such software themselves or through third-party consultants.

a. **Description in IPL.** The Connection (or IPL Party) should be described (but not identified) in sufficient detail to permit informed decisions concerning the Proposed Professional's "disinterestedness" (as defined in Section 101 (14));

b. **Identity Filed Under Seal.** The party seeking to preserve confidentiality with respect to IPL Parties or Connections may file a motion for leave to file the identity of the confidential party under seal under Rule 9018, Federal Rules of Bankruptcy Procedure, on notice to the Office of the U.S. Trustee, the Debtor, any official committee, the holders of the 20 largest claims against the Debtor, any party that has requested notice pursuant to Rule 2002, Federal Rules of Bankruptcy Procedure, any applicable local rule, and all other parties entitled to notice of motions of this type under orders of the Bankruptcy Court in the Debtor's bankruptcy case. If the Bankruptcy Court enters an order granting such relief, in whole or in part, the party obtaining such relief should proceed in accordance therewith; and

c. **Access to Sealed Information.** Subject to the provisions of any particular Bankruptcy Court's sealing order, any party in interest, including the United States Trustee, may ask the Bankruptcy Court for permission to review (or for their counsel to review) the sealed information, and the party seeking access to the information bears the burden of proof regarding such request. The Bankruptcy Court order granting such access may protect the information's continuing confidentiality. *See, e.g.,* Order Authorizing Evercore Group L.L.C. To File Under Seal Certain Confidential Information Related to Evercore's Retention Application, *In re: Jones Energy, Inc., et al.*, Case No. 19-32112 (Bankr. S. D. Tex.), ECF No.210.

9. Look-back Period and Diligence

a. **Time Period.** A Proposed Professional should disclose Connections during the three years preceding the commencement of the bankruptcy case unless the circumstances reasonably warrant a longer period. For example, if a Proposed Professional represented a party in interest in a leveraged buy-out of the debtor eight years before the petition date, the Connection should be disclosed. Conversely, if a Proposed Professional represented a creditor of the debtor in a matter unrelated to the debtor four years before the petition date, no disclosure of that connection should be required.

b. **Additional Processes.** A Proposed Professional (and AMAs and other Unretained Affiliates) may, but should not be required to, conduct a process or procedure to identify Connections in addition to those set forth in this Protocol.

10. Updates

A Proposed Professional, once retained, has ongoing disclosure obligations. The debtor has the continuing obligation to update the IPL. This Protocol recommends that a debtor update, file and serve the IPL in a manner that clearly identifies changes thereto from prior versions no less frequently than every 90 days, including in connection with the filing of the debtor's schedules and statements, the passage of the claims bar date, the commencement of adversary proceedings, and filings under Bankruptcy Rule 2019 or by prospective purchasers of the debtor's assets. Estate Professionals should supplement their Rule 2014 disclosures, to the extent necessary as a result of updated IPLs and other developments in the bankruptcy case, including by reason of newly discovered or inadvertently omitted Connections. Without limiting Estate Professionals' obligations relating to prompt disclosure of known Connections, Estate

Professionals may maintain continuing compliance with their supplemental disclosure obligations under Rule 2014 by updating their disclosures in accordance with this Protocol within a reasonable time after the debtor's filing of updated IPLs, to the extent required as a result thereof.

EXHIBIT A TO HOUSTON DISCLOSURE PROTOCOL³

³ Defined terms used and not otherwise defined in this Exhibit have the meanings ascribed to them in the Protocol.

GUIDELINES AND TEMPLATE FOR INTERESTED PARTY LIST

“Interested Parties List” or “IPL” means a list of people and entities, grouped into categories of their Connections, identified by name, and prepared to assist Proposed Professionals in complying with disclosure obligations under Rule 2014. The debtor, with the assistance of its outside restructuring counsel, should compile the initial IPL as part of due diligence leading up to the bankruptcy filing. An IPL categorizes each IPL Party in accordance with the nature of the Connection it has with the debtor, parties associated with the debtor (e.g., current directors, executive officers and debt and equity holders), and other IPL Parties (e.g., vendors, customers, contract, lease and litigation counterparties). Proposed Professionals rely on the IPL to provide the names of parties to review for possible Connections. In bankruptcy cases involving issuers of public debt or equity securities, it may be most efficient to construct the IPL using commercially available databases that offer exact legal names of entities and their affiliates.

An IPL may be both broader and narrower than the persons or entities the debtor lists in schedules and statements of financial affairs. An IPL (and updates to it as provided for in the Protocol) should include, without limitation, members of official committees, proposed purchasers of the debtor’s assets, and other Estate Professionals, none of which may appear in the debtor’s schedules and statements. An IPL may exclude *de minimis* potential IPL Parties that the debtor’s schedules and statements will include. Particularly in larger cases, the debtor’s schedules and statements may not be available before a Proposed Professional files its retention application. Accordingly, an IPL that the debtor makes available may form the best source of this information available to a Proposed Professional filing its retention application early in the bankruptcy case.

As set forth in the Protocol, a debtor should change and update the IPL during the course of a bankruptcy case, at intervals no less than 90 days, to reflect changing facts and circumstances in the case, including new developments, as well as to cure inadvertent omissions. Updates should reflect, among other things, the matters, events and circumstances addressed in the template provided below.

EXHIBIT "A"

IPL TEMPLATE

In its initial compilation of the IPL, the debtor should consider including the following categories of parties with Connections, as applicable:

- Debtor(s)
- Debtor affiliates and subsidiaries
- Current and former officers and directors (within the last 3 years)
- Affiliates of current and former officers and directors
- Significant equity holders (more than 5%)
- Prepetition lenders / noteholders
- Prepetition Indenture trustees / agents
- Initial DIP lenders
- U.S. Bankruptcy Court Judges serving in the District (as updated, only the Bankruptcy Judge presiding over the bankruptcy case will remain an IPL Party)
- U.S. District Court Judges for the applicable district
- U.S. Trustee (for the applicable region) and Staff Attorneys and Trial Attorneys in the District in which the case is filed
- Top 50 unsecured creditors
- Identified bankruptcy professionals
- Ordinary course professionals
- Contract counter-parties (other than *de minimis*)
- Vendors / suppliers (other than *de minimis*)
- Customers (other than *de minimis*)
- Competitors (other than *de minimis*)
- Landlords and lease counter-parties (other than *de minimis*)
- Licensees and licensors (including under intellectual property rights) (other than *de minimis*)
- Utility companies (other than *de minimis*)
- Litigation counter-parties (other than *de minimis*)
- Regulatory agencies / governmental bodies
- Taxing authorities (other than *de minimis*)
- Labor unions
- Depository banks (other than *de minimis*)
- L/C issuers
- Lien claimants
- Insurance providers and agents
- Surety bonds and surety providers
- Other IPL Parties significant to the bankruptcy case, and not included above.

The parameters for excluding *de minimis* parties from the IPL depend on the facts and circumstances of each particular bankruptcy case. In each category appropriate for *de minimis* exclusions, the debtor should consider a practical *de minimis* limitation so that category will contain only IPL Parties that bear on a Proposed Professional's disinterestedness. The IPL should

disclose the dollar amount, percentage amount or other criteria (e.g., limiting equity holders to thresholds based on value and percentage interest) chosen for *de minimis* exclusions in each applicable category.

Updates

As set forth in the Protocol, the IPL is a dynamic document, and a debtor should change and update the IPL during the course of a bankruptcy case. The debtor should update the IPL no less frequently than every 90 days to reflect changing facts and circumstances, new developments, and information learned during the bankruptcy case, as well as to cure inadvertent omissions. After the filing of the bankruptcy case, the IPL should be updated to include additional IPL Parties identified in:

- The debtor's schedules and statements (including any amendments)
- Proofs of Claim
- Notices of appearance
- Adversary proceedings and other motions or applications
- Filings by prospective purchasers of debtor's assets, plan proponents and under Bankruptcy Rule 2019
- Appointments of official committees and retention of Estate Professionals

Exhibit B

Firm-Wide CSP Survey

Exhibit B – Firm-Wide CSP Survey

Subject: VALARIS McKinsey - Your Response Required by September 11, 2020 – Important Legal Disclosure Obligations

This is a request for information that requires your attention and prompt response if you have any information to report or matters to disclose. Please read each of the four disclosures outlined below. If you have any information to disclose please respond to this email by September 11.

If you would respond in the negative to each of the four questions below, you do not need to respond to this questionnaire or click on the survey link provided.

Thank you in advance for your prompt assistance.

Dear [Preferred Name],

VALARIS Plc, along with certain of its affiliates (“VALARIS”) is a Firm Client. Since VALARIS petitioned for bankruptcy protection, we made a decision to continue our service to VALARIS (but are not serving VALARIS as an advisor on bankruptcy matters). Nonetheless, because of this ongoing service to our client, we are filing a formal application with the U.S. Bankruptcy Court to be retained in the matter.

As a result of the above, we will submit certain disclosures, including disclosure of certain connections with entities previously identified by VALARIS as parties in interest in the bankruptcy case.

There are several types of disclosures that we will make to the Bankruptcy Court. Most of the information to be disclosed can be obtained from the Firm’s databases and records. That process is underway. We also need a limited amount of information, from Client Service Professionals (“CSPs”) through questionnaires (“**Questionnaire Recipients**”). We ask these questions of all CSPs, not only CSPs who worked for VALARIS.

First, we will disclose to the Bankruptcy Court presiding over the VALARIS cases any holdings by Questionnaire Recipients in either the debt or equity securities of VALARIS (excluding any investments, whether held through mutual funds or other investment vehicles, that are managed by third parties with delegated investment authority and discretion; “**Third-Party Managed Investments**”), as well as the existence of any other claims against VALARIS held by any Questionnaire Recipient.

Second, we will disclose to the Bankruptcy Court presiding over the VALARIS cases any prior employment (if any) that a McKinsey CSP has had with VALARIS.

Third, we will disclose to the Bankruptcy Court whether any Questionnaire Recipient has any connections to the United State Trustee or any person employed in the Office of the United States Trustee for the Southern District of Texas.

Fourth, we will disclose to the Bankruptcy Court whether any Questionnaire Recipient has any connections to any of the Bankruptcy Judges for the Southern District of Texas.

Exhibit B – Firm-Wide CSP Survey

Please review the categories of connections below and click on the survey link provided to submit your response **ONLY IF** you have a connection of the nature described.

Please complete the survey by end of day on **September 11, 2020**.

1. Debt or Equity Securities, or Other Claims Against VALARIS*

Have you, on or after **May 21, 2020**, owned or held a beneficial interest in any debt or equity securities (other than Third-Party Managed Investments) of, or claims against, any of VALARIS or its debtor affiliates (listed below)?

2. Prior Employment by VALARIS

Have you been employed by, or served as a director or officer for, VALARIS or its debtor affiliates (listed below)?

3. Connections to the United States Trustee or any Person Employed by the Office of the United States Trustee for the Southern District of Texas. The names of the United States Trustee and employees in the office of the United States Trustee for the Southern District of Texas are listed below. Do you have any connection to the United States Trustee or to someone employed in the office of the United States Trustee for the Southern District of Texas?

Alicia McCullar	Gwen Smith
Barbara Griffin	Hector Duran
Christine March	Jacqueline Boykin
Christy Simmons	Linda Motton
Clarissa Waxton	Luci Johnson-Davis
Diane Livingstone	Patricia Schmidt
Glenn Otto	Stephen Statham

4. Connections to any Bankruptcy Judges in the Southern District of Texas. The names of the Bankruptcy Judges in the Southern District of Texas are listed below. Do you have any connection to a Bankruptcy Judge for the Southern District of Texas?

Hon. Christopher M. Lopez	Hon. Jeff Bohm
Hon. David R. Jones	Hon. Jeffrey P. Norman
Hon. Eduardo V. Rodriguez	Hon. Marvin Isgur

Exhibit C

DCS Email Survey

Exhibit C – DCS Email Survey

This email requires your response by September 18, 2020. We appreciate your time in completing this survey.

You may receive multiple emails on this subject. You are required to promptly respond to each email.

CONFIDENTIAL

Dear Jill,

Valaris Plc, along with certain of its affiliates (“VALARIS”) has been a Firm Client for several years. Since VALARIS petitioned for bankruptcy protection, we made a decision to continue our service to VALARIS (but are not serving VALARIS as an advisor on bankruptcy matters). Nonetheless, because of this ongoing service to our client, we are filing a formal application with the U.S. Bankruptcy Court to be retained in the matter.

As a result of the above, we will submit certain disclosures, including disclosure of certain connections with entities previously identified by VALARIS as parties in interest in the bankruptcy case.

You are listed as having served the following clients which are indicated as interested parties (or affiliates of interested parties) in the VALARIS Bankruptcy. Please note: You may not immediately recognize these clients as yours, so please review the charges codes listed below/in the link below, for which you are listed as a DCS or ED. In either case, please complete the survey to the best of your knowledge – if you have no specific knowledge, you should still complete the survey.

The clients and charges codes for which you are listed as a DCS or ED are:

AXA: UVA282, UVA284

Bank of America Corp.: 1923EE, BOA223, BOA224, BOA206

BB&T Scott & Stringfellow: TFW007, TFW008, TFW001, TFW006

Canadian Imperial Bank of Commerce: 4420YS, 5174NA, 6629WZ, 6648MA

Citigroup Inc.: 1933RF

First Clearing LLC: FQL004, FQL003

Summit Hotel Properties, Inc.: 3368LQ

UBS Group AG: 7869VH

Wells Fargo & Company: WFB284, WFB285, WFB259

Please find the survey link here

Exhibit C – DCS Email Survey

It is important that you complete your own survey. Please complete your response by September 18, 2020.

If you do not have enough information about your designated engagements to complete the survey, please discuss with your colleagues who can provide you this information and then complete the survey. This submission will be a public filing and will include the client names noted in the list of engagements linked below on a schedule with Firm clients that are, or are affiliates of, a party in interest. Provided the work was not related to VALARIS, the disclosure will be limited to listing the client's name, among a list of what we expect will be hundreds of Firm clients, with no further detail. In the event the work was related to VALARIS, we will need more information to evaluate further and to draft the relevant disclosure.

In the event revenues associated with a client exceed certain thresholds, we will also disclose that fact. We are undertaking an analysis to determine which, if any, clients meet such a threshold and will reach out to the relevant DCSs in advance of such disclosure.

Contacts for Questions

If you have questions, please review the FAQ provided through this link: [Link to FAQ](#)

Should you have any further questions please reach out to VALARIS-rtts@mckinsey.com.

If you are having any technical issues filling out this survey, please contact the [Global Helpdesk](#).

Thanks in advance for your help.

Engagement CSP Survey

Exhibit D – Engagement CSP Survey

Subject: VALARIS McKinsey US - Your Response Required by September 18, 2020 – Important Legal Disclosure Obligations

This email requires your response by September 18, 2020.

You may receive multiple emails on this subject. You are required to respond to each email.

Dear XXXX,

Valaris Plc along with certain of its affiliates (“VALARIS”) is a Firm Client that has sought bankruptcy protection. Since VALARIS petitioned for bankruptcy protection, we made a decision to continue our service to VALARIS (but are not serving VALARIS as an advisor on bankruptcy matters). Nonetheless, because of this ongoing service to our client, we are filing a formal application with the U.S. Bankruptcy Court to be retained in the matter.

As a result of the above, we will submit certain disclosures, including disclosure of certain connections with entities identified by VALARIS as parties in interest in the bankruptcy case. The list of interested parties can be accessed using the link provided at the bottom of this email or directly through the survey link. Please review this list before completing the survey.

You have been identified as a member of the team providing services to VALARIS.

Accordingly, we are reaching out to you to determine:

- (1) whether you have any personal connections with any parties in interest (i.e., other than connections through your work at McKinsey);
- (2) whether you are aware of any person or entity not included on the interested parties list that you think should have been included because it is an interested party in VALARIS’s bankruptcy (for example, because it is or was a creditor of, or has or had some other business connection to, VALARIS, VALARIS’s assets, or the work being performed by the VALARIS team);
- (3) whether you have worked with any of the MIO Partners, Inc. (“MIO”) directors listed below, including (but not limited to) whether you ever discussed MIO investments with the director;

MIO Directors

1. Tom Barkin
2. Ivo Bozon
3. Kevin Buehler
4. Christine Cumming
5. Timothy Flynn

Exhibit D – Engagement CSP Survey

6. Jon Garcia
7. Martin Huber
8. Elizabeth Lempres
9. Vikram Malhotra
10. Jean-Christophe Mieszala
11. Gordon Orr
12. Stefan Spang
13. Kevin Speicher
14. Magnus Tyreman
15. Don Waite III
16. Paal Weberg
17. Michael Patsalos-Fox
19. Karen Peetz

;and

(4) whether you are related to or have any relationship with any of those MIO board members, other than one arising out of having McKinsey as a common employer.

Please answer the questions below by clicking on the appropriate option in the survey link provided. Your response is required by close of business on September 18, 2020.

If you have any questions, please do not hesitate to reach out to VALARIS-rts@mckinsey.com

Thanks in advance for your help.

VALARIS Interested Parties List

Please find the survey link here – **[LINK TO SURVEY]**

SURVEY TEMPLATE

Please answer the questions below by clicking on the appropriate option. Your response is required by close of business on September 11, 2020.

Exhibit D – Engagement CSP Survey

1. To your knowledge, did you or do you have any connections, other than professional client relationships in your capacity as a McKinsey professional, with any entity, person, or any person employed by any entity on the attached interested parties list?

This would include, for example, social or family relationships with, stock you hold directly in (but not through mutual funds and other investment vehicles that are managed by third parties with delegated investment authority and discretion), or prior employment by a party or someone employed by a party on the attached list.

[Check-box 1] -- Yes

[Check-box 2] -- No

[BELOW IS A MANDATORY FREE TEXT FIELD FOR ANYONE WHO SELECTS CHECK-BOX 1 ABOVE]

2. What is the nature of such connection(s)?

3. Are you aware of any person or entity not included on the attached interested parties list that you think should have been included because it is an interested party in VALARIS's bankruptcy (for example, because it is or was a creditor of, or has or had some other business connection to, VALARIS, VALARIS's assets, or the work being performed by the McKinsey team for VALARIS)?

[Check-box 3] -- Yes

[Check-box 4] -- No
